This stretch of water may only be used from 16.04.-15.10. in accordance with the fishing regulations of the Canton of Bern.

Specialities:
Dam (autom. flushing),

Gear:
Ropes: 2x 50m

Summary: (machine translated)
A canyoning gem in the Kandertal valley near Reichenbach. A short but beautiful and rewarding descent.

Hydrology: (machine translated)
Telephone number hydroelectric power station: +41 58 477 84 95
Do not underestimate the amount of water in this canyon and the warnings about the danger of sudden floods!

The water level must be assessed above the intake. At full capacity, 1,5000 l/s are turbined. In the event of an automatic shutdown, this amount of water can also be expected in the canyon...

Access: (machine translated)
Approach via A8 exit 19 in Spiez and continue in the direction of Kandersteg. In Reichenbach turn left towards Kiental. The parking lot is located directly after the bridge over the Spiggenbach. The equipment can still be reached by car about 1.3 km in the direction of Griesalp to the Spiggengrund junction.

Approach: (machine translated)
Follow the road to Spiggengrund on foot for about 1.7 km until you reach the first bridge over the Spiggenbach stream just behind the dam.

Tour: (machine translated)
Alongside the Gries and Gamchi canyons, the Spiggenbach is a canyoning gem in the Kandertal valley near Reichenbach (Bern/Berne/Berner Oberland). The canyon is very scenic and the abseils are a fun challenge.
Caution: Don't tie out too early! In several places there were two steps down, this also applies to the C32!

Warning from the power plant operator: Staying on or in the streambed below the water intake of a hydroelectric power plant is dangerous. If there is a technical fault in the power station, the water level can suddenly rise. What is dangerous is that the so-called surge water can neither be prevented nor predicted in terms of time. It is also independent of the weather.
Number of the power plant: 0848121175

Return:

Coordinates:
Canyon Start 46.5781 7.7446
Canyon End 46.5781 7.7362
Parking Entry and Exit 46.5795 7.7293

Automatisch importiert von Schlucht.ch für Canyon Spiggebach, Wasserstand: "DC" Verankerungen: "gut" Schlucht zu dritt begangen. Die Pools sind meist voll mit Kies, einige gehen zum springen, Kontrolle notwendig. Grosser Abseiler ergänzt mit zusätzlichem Stand. D14 queren rechts zum Lochüberhang. Dann sehr schön C30 ins grosse Becken... Aktuell guter gripp zum gehen. (Quelle: https://schlucht.ch/schluchten-der-schweiz-liste/1268-spiggebach)

Alongside the Gries and Gamchi canyons, the Spiggenbach is a canyoning gem in the Kandertal valley near Reichenbach (Bern/Berne/Berner Oberland). The canyon is very scenic and the abseiling sections are a fun challenge. Caution: Don't tie out too early! In several places there were two steps down, this also applies to the C32! My 70m rope was twice as long everywhere. Approach via A8 exit 19 in Spiez and continue towards Kandersteg. In Reichenbach turn left towards Kiental. The parking lot is located directly after the bridge over the Spiggenbach. The equipment can still be driven about 1.3 km in the direction of Griesalp to the Spiggengrund junction. Follow the road to Spiggengrund on foot for about 1.7 km until you reach the first bridge over the Spiggenbach just after the weir. Never underestimate the amount of water in this canyon and the warnings regarding the danger of sudden floods! (see link to schlucht.ch for more details) Abseiling heights (estimated!!): C12, C15, C14, C28, C32 For details of the tour see https://www.christian-balla.de/Spiggenbach or video https://www.youtube.com/watch?v=phki8itowUA (machine translated)
