Specialities:

Gear:

Summary: (machine translated)
Short and quite vertical canyon, perfect to combine with any other in the area of Falgars where its cuts offer several possibilities thanks to its immediate access, the return is short if we do not lose the way back.

Hydrology: (machine translated)
Impossible in the vertical

Access: (machine translated)
Location Val d'en Bas
We must be located in Falgars d'en Bas.
From San Esteve d'en Bas on the C153 southbound, we turn off at Els Hortalets, cross the village and go southbound on the local road. After 500m we have the detour to the right to La Coromina/Falgars. We will go up to Falgars.
If we go from the south from Rupit by the C153, in the pk 34 we have a curve where the detour to Falgars comes out.
Once in Falgars we go down to the stream of Falgars, next to the bridge there is a small esplanade where to park.

Approach: (machine translated)
Val d'en Bas canyons
Immediate

Tour: (machine translated)
Vertical descent a first rappel to approach the vertical and then the 65m vertical with two installations (right and left). It leaves us on a ledge to make the second rappel. Then we will have two more rappels already out of the vertical.

Return: (machine translated)
After the chaos we will find the path on the left that leads us to the uphill track.
