Beautiful tour. All anchors in order and easy to reach. At the intermediate belaystation you should not rappel into the pool but only to the belaystation (right about 4m above the pool). (machine translated)

Superiore to climb and a great tour in between. On the last big rappel (20m + 20m), the "Sauschwanz"/diverter is broken on the lower one and the orographic left stand (dry chain anchor) must always be checked for real usability, but there is a glued anchor on the right. As usual, you can find a video of the tour on Instagram at https://www.instagram.com/reel/DIa0vItA9Cg/?igsh=MXdndHM2ZHVsc3Jqcw== (machine translated)

Super grip, nice flow. Only downfall are the pools that are with gravel and the occasional rock surprise in the reception. Optimal with morning to midday sun.
