Country: France **Region:** Auvergne-Rhône-Alpes **Subregion:** Ain **Town:** Hauteville Lompnes		
Difficulty: a little difficult	**Grading:** v4 a1 I	**Total time:** 1h26
Approachtime: 1min	**Tourtime:** 1h10	**Returntime:** 15min
Altitude entry: 970m	**Altitude exit:** 880m	**Delta Altitude:** 90m
Canyon length: 200m	**Highest rapell:** 57m	**Amount rapells:** 5
Transport: on Foot	**Rock type:**	**Drainage area:** km²
Season:	**Orientation:** West	**Best Time:**
Rating: ☆ 2 (2)	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:
Ropes: 2x 60m

Summary: (machine translated)
Short rappel canyon, usually with little water

Hydrology:

Access: (machine translated)
From Geneva, take the A40 highway for about 65 km in the direction of Lyon. After 3 short tunnels, you pass the small town of Nantua (on the right below a high viaduct) and then drive through a tunnel about 3 km long. We take the next highway exit and come to St. Martin du Frere. From here we head south on the D 12 (Route de Condamine). After 13 km we turn left onto the D8 and after another 11 km we reach the village of Hauteville-Lompnes.
From here, take the D9 in the direction of Col de la Rochette, Ruffieu. After about 2 km uphill, we come to a road bridge with a stone cross nearby. We park the car here.

Approach: (machine translated)
Above the bridge (from the guardrail) rappel into the stream and down to the culvert.

Tour: (machine translated)
The long rappel is 57 m if you rappel through, 16 + 45 if you take the intermediate belay at the natural bridge. Here the anchor on the natural bridge did not look very safe (2011).

Return: (machine translated)
Either immediately after the high rappel half-left take the path up to the road or the next 3 steps (each 5 m) further down in the stream, then pathless left up until you meet the path up.

Coordinates:
Canyon Start 45.9677 5.6234
Canyon End 45.9668 5.6180
Parking Entry and Exit 45.9676 5.6234
