Summary: (machine translated)
Hiking canyon with smaller climbing sections, in summer usually without water flow; extremely dangerous during heavy rain!

Hydrology:

Access: (machine translated)
How to get to Esmolar: From Inca on the MA2130 in the direction of Lluc. At the top of the mountain pass, take the MA10 and follow it to the left towards Soller. After 4.7 km we come to the Restaurant d'Escorca on the left. We park our car here for access.
We drive the car for the exit down to Port de sa Calobra and park it in the parking lot there, see "Conversion" in "Photo gallery".

Approach: (machine translated)
From the restaurant s'Escorca down the hiking trail into the Torrent de Lluc:

Access is also possible via the Torrent d'Esmolar or Gorg Blau/sa Fosca. It is also possible to walk up the valley from sa Calobra and back down again, as well as up the valley with a subsequent ascent on the hiking trail to Escorca.

Tour: (machine translated)
Long hikes and downclimbs in a mighty canyon. All climbing passages are well polished by countless hiking boots. Splashes of color and cairns point the way through the labyrinth of rocks. There are usually ropes at the steepest points, but anchors are always available.

Return: (machine translated)
A few meters before reaching the sea, turn left and take the brick path to Sa Calobra and the car.

Currently no water, but a huge and very beautiful canyon. We did 2 rappels, but it can also be downclimbed. We came from Sa Fosca. You should do it if you're fit and still have enough time. (machine translated)

Automatisch importiert von Descente-Canyon.com für Canyon Pareis Exceptionnelle la partie sa fosca a voir une fois dans sa vie de canyon. On se demande comment une telle merveille a pu etre creer. Il ne ressemble a aucun autre canyon. Les boites a lettres et la couleur de l eau sont mystique.Fait en integral jusqu a pareis avec la sortie dans la mer (qui est aussi incroyable). On etait 6 (martel, doudou , tonio, quentin, anto). Fait en etanche particulièrement recommandé car l eau est glacé malgré une journée extrêmement chaude. Dans mon top 10 mondial. Depart du parking de l auberge a 9h45. Arrivé au parking payant de sa calobra a 18h45. Fait l integral (gorg blau sa fosca pareis) sans aucune pause en 9h00. Automatisch importiert von Descente-Canyon.com für Canyon Pareis Descendu en 4h avec la marche d'approche d'Escorca avec ma chérie. Pas de corde fixe. Une nouille de 10m aurait été appréciée pour 2 passages un peu scabreux où on ne voit pas où mettre les pieds. Ça passe bien une fois qu'on sait !
