I have been here!

Quite nice, some abseils and actually quite vertical for the shortness. At the first high rappel there is an intermediate belay after three meters on the right, but it is difficult to reach. On the second high waterfall, it's better to take the belay on the right of the edge (old fixed ropes) than the dizzy anchor on the left. Overall, it is easier with 2×40m (machine translated)

Turn some anchors, ropes could be replaced next year. (machine translated)

Nice tour for bad weather, short and crisp. Only a few pitches overall, but well worth it! All anchors top. (machine translated)
