Gear:
Ropes: 2x25m

Summary: (machine translated)
Short, not unattractive canyon - 'gravel slippery' with narrow sections - with some possible jumps, also suitable for beginners. Conveniently located to 'take along' on the drive past into the Pyrenees.

Hydrology:

Access: (machine translated)
From the Rhone Valley highway A-7 (Route de Soleil), take the Valence (Sud) exit onto the N-7 in the direction of Livron, Loriol (southbound).
After about 7 km, the N-7 makes a bend and then temporarily heads east. At the beginning of this bend, turn right and head west over the Rhone to Charmes-sur-Rhone (3.5 km).
In the middle of this village, turn onto the D-232, which continues westwards to St. Georges les Bains (3 km). In this village, the road widens and then bends to the right. Immediately after this, turn left down into the valley to a bridge over the Turzon. Park one car here.
Take the other car from St Georges les Bains and continue for about 2 km on the D 232 slightly uphill to a prominent bend to the right, where there is a large parking area for the vehicle on the left (south).

Approach: (machine translated)
From the car south down to the Turzon.

Tour: (machine translated)
Varied descent with jumping possibilities and a turbo slide.

Return: (machine translated)
Approximately halfway along the route at a bridge - there on the right-hand side a warm spring in a pond - exit possible to the left on a small road up to the D-232. Below the bridge only the C 15 (possible jumps) is interesting. After the 15 m waterfall, walk out to the bridge where the 2nd vehicle is parked.

Coordinates:
Canyon Start 44.8547 4.7961
Canyon End 44.8564 4.8007
Alternative Canyon End 44.8549 4.8071
Parking Entry and Exit 44.8559 4.7953
Parking at Exit 44.8516 4.8104

Automatisch importiert von Descente-Canyon.com für Canyon Turzon A bit low waterlevel. The exit is just before the first bridge, apparently the second half of the canyon is prohibited but not up to date on this website. (I posted a wikiloc-log with my route) (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2217/observations.html)

2025-05-10 | System User | |🕮 |⚓ | 〰 Normal | 👍 Completed
Automatisch importiert von Descente-Canyon.com für Canyon Turzon Il y a sûrement une entrée un peu plus basse qui permettrait d’arriver directement au départ de l’encaissement et qui éviterait de passer dans la partie forestière pleine de vie animale ? On a croisé des baigneurs à cet endroit, ça doit donc être possible. Et sortir par le sentier RG juste avant le pont (aux premières maisons visibles) pour éviter de passer dans le jardin des gens. Sinon RAS (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2217/observations.html)
