Specialities:

Gear:

Summary: (machine translated)
Simple and beautiful canyon that, in spring, with water we will enjoy pleasantly, its first rappel is a delight. Perfect to combine with Mela and Sord.

Hydrology:
Difíciles

Access: (machine translated)
To get to Abdet take the CV-70 in Benidorm or Alcoy and at km 24.3 turn to Abdet. Once in the village continue to the end of it where there is a parking next to a restaurant.

Approach: (machine translated)
From the parking lot, looking down, we go to the right along the Carrer Baix that ends in Costereta. We will go to the left to the field, from where a path goes straight ahead that we will follow heading south just to the river cuts. When we reach these ramps we will go down zigzagging as we can to reach the riverbed, right next to the first rappel.

Tour: (machine translated)
A first rappel with 3 possibilities of installation, spectacular the 3, from here much simpler and shorter rappels with which we will go through the canyon to the area of pools (it may be dodging them).

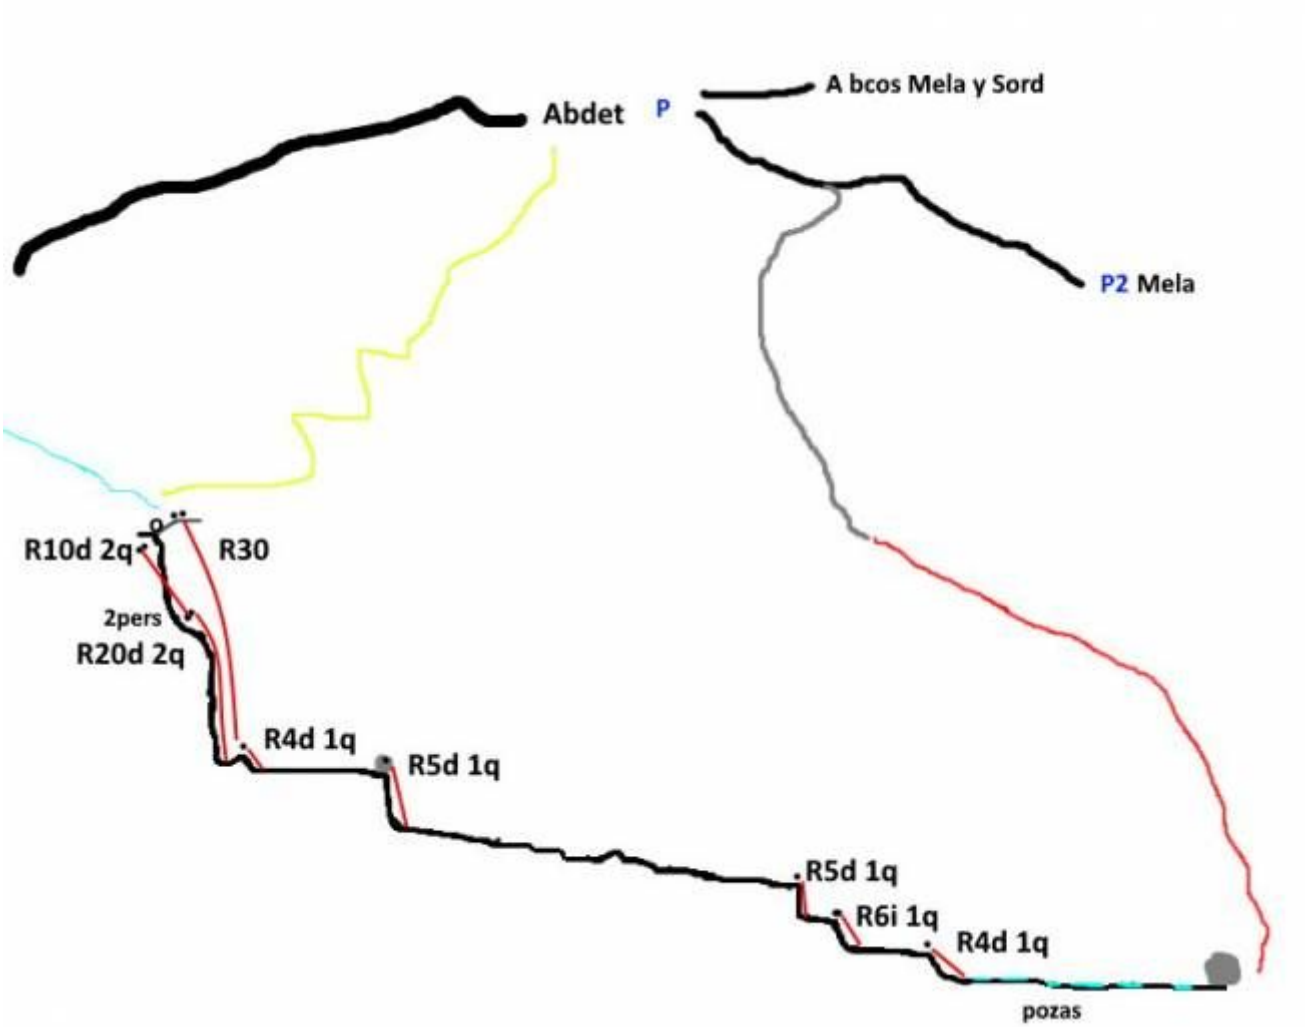

Return: (machine translated)
When we reach a large block we go around it and go left, it is not very trodden, except for some milestone that will make us go up to some terraces and a path that leads to the village.
There is the possibility of following the river a few hundred meters to the road but the riverbed is becoming more and more dressed.

Coordinates:
Canyon Start 38.6906 -0.2555
