Season: June - August	**Orientation:**	**Best Time:**
Rating: ☆ 3 (1)	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
This canyon can be easily combined with its continuation Gourzy. A canyon with little water, countless overhangs and almost all the rappels are natural.

Hydrology: (machine translated)
Difficult due to the complicated terrain.

Access: (machine translated)
Location Eaux Chaudes
We must go to the French town of Laruns.
To do this we cross the Portalet and follow the D934 towards Eaux Chaudes.
From Pau by the N134 towards Laruns and then by the D934 towards Eaux Chaudes.
Location of the Gourzy and Leignieres ravines
From Eaux Chaudes towards Portalet, at the turn-off to Goust we will leave the car to return if we also want to do Gourzy.
From the detour to Eaux Chaudes the road crosses the bridge over the Ossau and soon a paved road on the right, we take it and go up to the bridge over the stream of Gourzy, which is the exit of Leignieres. Here we leave the car to return if we do not do Gourzy.
If we have two cars and the track is open, we climb up to the elevation of 1100, where the track crosses the streams of Lacarret, Gourzy and finally Leigieres. We park here.

Approach: (machine translated)
Access to Gourzy and Leignieres ravines
Direct from the bridge.

Tour: (machine translated)
A wild descent, with atmosphere, full of climbing skills, fallen trees, ... quite an adventure. Except for the big waterfalls, the rest can be climbed, saving us a lot of time.

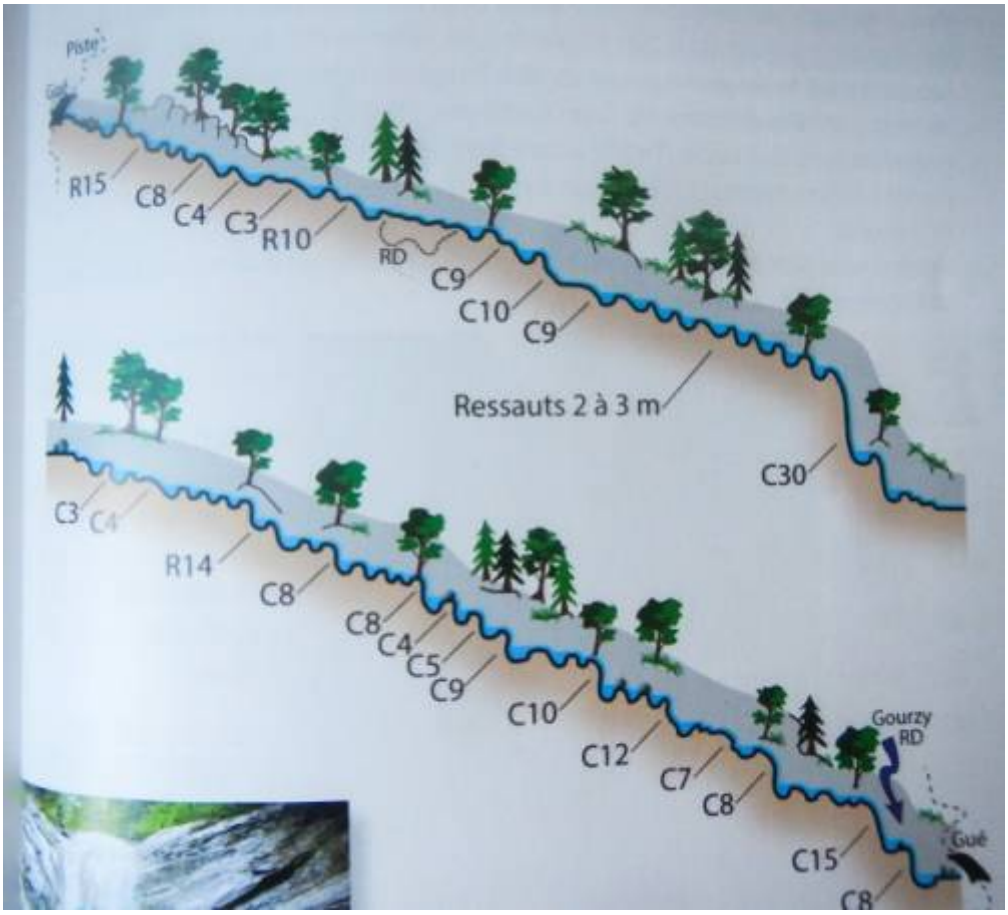

Return: (machine translated)
We will arrive almost to the bridge at the beginning of Gourzy. We leave to the left to the track

Coordinates:
Canyon Start 42.9445 -0.4282
