Automatisch importiert von Descente-Canyon.com für Canyon Pissevieille We did "best of" and exited after the c67. Nice! Anchors top. Most of what we did had a very small running stream (<0.5l/s), some parts were dry. The pools are clear. We did this section in 2 hours, so 5 hours for intégral is probably an exaggeration. Ran into some cows on the approche, after a brief staring contest they let us pass (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2191/observations.html)
