Specialities:

Gear:

Summary: (machine translated)
Succession of waterfalls in alpine environment, very slippery with a flow that increases as it is boxed and by the contributions that it receives. Its flow must be taken into account because the facilities are not designed for a high flow. Its access and return are comfortable but its development is long due mainly to its first part totally dispensable, of which there are reviews that indicate that it can be avoided (if someone knows it, tell us about it).

Hydrology: (machine translated)
Only in the first part

Access: (machine translated)
Access Artigue and Subra
From Tarascon-sur-Ariège on the N20, take the D8 to Vicdessos-Auzat.
Access Artigue and Subra
Pass Auzat and continue on the D8 towards Marc. As we leave the village we see a detour to the right to l'Artigue 2.5km. We park in the parking of l'Artigue the car of return.
The access car or if we take only one, we must park it one kilometer before, on the bridge over the river. Here we have a track on the left hand side where we will make the approach.

Approach: (machine translated)
Approx Artigue and Subra
By the track that leaves to the left of the bridge we go up to the 1500m level here we enter. You can enter higher and make the upper waterfalls, just below the dam. It is also possible to enter lower just before the waterfalls of the boxed area.

Tour: (machine translated)
Two parts, the upper one more open, slippery, full of projections, where it is difficult to advance.
The second part is boxed in, with rappels through the active and without the possibility of escapes.

Return: (machine translated)
We arrive at the confluence of the rivers, cross to the road and walk to the parking lot or to the bridge.

Automatisch importiert von Descente-Canyon.com für Canyon Subra Partie finale du canyon faite après le canyon d'Artigue ! Partie avec de beaux rappels et intéressantes pour travailler les techniques de corde (ex.: debrayable du bas, déviation larguable). Les amarrages sont en bon état.
