Specialities:

Gear:

Summary: (machine translated)
Dry but fun canyon. Caution with the first rappel from the tree, it is damaged and must be climbed.

Hydrology:
Difíciles

Access: (machine translated)
We must reach Montanejos, from here to Montán by the CV195, at pk 19.6 we have the bridge over the ravine. A few meters before we can leave the car to return.
If we have two cars we continue to Montán, we get into the village and cross it by the road to the Tejería fountain. Upon arrival we will see a signpost to the right to the Fuente de la Reina, we take it and the next fork to the right to the yellow fountain. We will almost reach this fountain, but shortly before we have a detour to the right along the concrete track that zig-zags up to the top. Past the corral de los Navarros the track heads towards the repeater we will see the ravine on the right, before two sharp bends we park.

Approach: (machine translated)
With a car see 2nd car review.
From the upper parking lot we go down to the ravine.

Tour: (machine translated)
Nice canyon with rappels of all types, not too difficult. Be careful with the natural ones, the first one has a tree in bad condition.

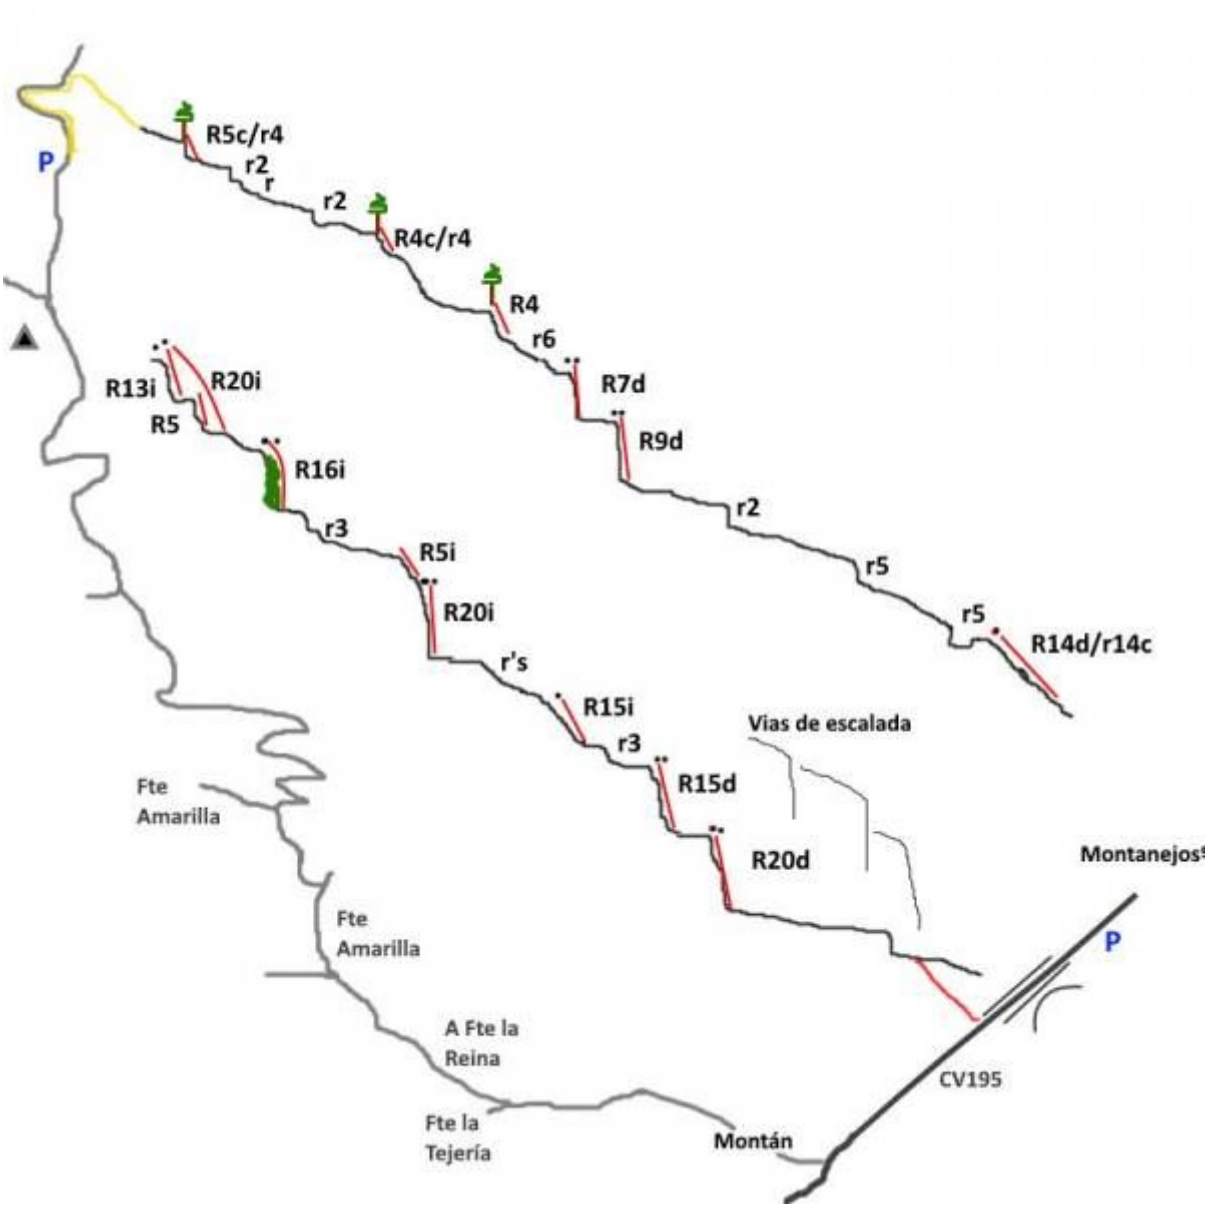

Return: (machine translated)
We will reach the climbing routes and we will have a path on the right that leads us to the bridge.
