We first tried to do the regular superiore. Unfortunately, its access was already too icy, so we couldn't get across safely. Then we switched to this sup and everything was superiore there. Scenic and beautiful. Some more serious downclimbs. (machine translated)

After doing the classic Rosenlaui Sup. we were curious and wanted to see what was happening in the other tributary. And lo and behold, there were even more canyoning passages that didn't yet have anchors. (machine translated)
