Specialities:		
Gear:		
Summary: (machine translated) Subsidiary of the Llauset, like this one, it has two ravines in the same river. The upper part is very alpine with precarious facilities and the lower part is more fattened and with better facilities. The lower part is ideal to combine with Llauset Inf. Caution with the spring flows with the thaws.		
Hydrology: (machine translated) In the upper one yes, in the lower one no		
Access: Situación pueblo Aneto Por la N230 entre Pont de Suert y Vielha. A la altura del pk 140, justo antes de llegar a Senet y Aneto tenemos el puente sobre el río Llauset, zona de aparcamiento para el retorno de Llauset Inf sin combinamos Malmarrui inf con Llauset. Seguiremos hasta Senet y el desvío a Aneto. Atravesaremos el bonito pueblo de Aneto y seguiremos por la carretera que sube al embalse de Llauset, al poco tenemos una curva cerrada a derechas y un poste indicador al Azud de Morelló, aquí podemos aparcar el coche para el retorno de Malmarrui inf. Es el mismo sendero de acceso a Llauset inferior. Siguiendo unos cientos de metros más por la carretera llegamos a las Bordas de Nestui donde podemos aparcar el coche de acceso de Malmarrui. Un poco más adelante llegamos al barranco de Farreres o Malmarrui donde aparcaremos el coche de retorno para Malmarrui Sup o si solo tenemos uno. Con el otro coche seguiremos carretera arriba hacia la presa hasta la bifurcación antes del túnel. Aquí nos iremos a la derecha y aparcaremos al final de la pista justo al lado de la cabecera del Malmarrui superior		
Approach: (machine translated) Access Llauset Inf, Sup and Malmarrui Inf and Sup To access Malmarrui superior if we have two cars is immediate, down to the riverbed. With only one car we will leave by the GR towards a forest that we will cross leaving the GR to the left and going up a steep slope to the upper track. We will follow the track to the parking lot and go down to the riverbed. To access the lower part from the Bordas de Nestui we access the "riverbed" to the Nestui and here we start the descent that brings us down to Malmarrui.		

Tour: (machine translated)

A very alpine and more open upper part, with longer rappels and precarious equipment.

A more interesting lower part, more fattened and that we can easily combine with Llauset Inf.

Return: (machine translated)

From the upper one we follow the riverbed up to the road where we have parked.

From the lower one we can continue through Llauset and reach the N230 or leave through the Azud de Morelló (Llauset inf access) towards the road.
