Specialities:		
Gear:		
Summary: One of the best canyons on the island. The route begins in an open environment and then becomes increasingly technical and aquatic thanks also to the numerous tributaries and springs that you encounter.		
Hydrology:		
Access: Car shuttle required, or can use mountain taxi to be taken to the broadcast tower (call or WhatsApp Sakis +30 694 7099107, some English). Bottom car: Drive along the northern coastal road to the Fonias River. Park in the large tourist carpark. Upper car: Drive up the mountain to the broadcast tower at 40.4613, 25.6473 (rough road with sharp stones). Note that you can walk on a path from the tower, you do not have to stop at the last corner of the road.		
Approach: Find the path by walking below the broadcast tower. Follow the path, and bypass the fenced enclosure on the higher side. Continue slightly downhill until you meet the stream at around 700 m altitude. GPX at https://ropewiki.com/Fonias		
Tour:		
Return: After the last major waterfall and large pool, find the track on river right.		
Coordinates: Canyon Start 40.4587 25.6243 Parking at Exit 40.4903 25.6549 Parking at Entry 40.4614 25.6471 Canyon End 40.4803 25.6459

As the rope got stuck on the last ascent when we were pulling it off, we went in again. This happened on the triple sequence on the second rappel. It's best to give it a good jerk just before the rope jumps out of the ring. It got stuck in a mini-siphon and was very difficult to free, but doable. Otherwise a great canyon. 2 cars or shuttle required. Access road very bad and only accessible by high car. (machine translated)

Automatisch importiert von Descente-Canyon.com für Canyon Fonias Parking amont à la dernière épingle avant antenne . La piste est longue , bien caillouteuse sur la 2eme moitié mais ça passe bien en sandero steway. Ça passe à mon avis aussi en voiture type clio mais faudra juste bien négocier deux trois passages. L’était peut vite changer après une grosse pluie .Approche facile en 40 min , suivre points bleus puis ça devient rouge.Canyon intégral fait en 3h50 à deux . C’est classe , quelques longueurs dans les blocs sur la partie sup (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/21598/observations.html)
