Country: España / Spain **Region:** Cataluña / Catalunya **Subregion:** provincia de Tarragona **Town:** Horta de Sant Joan

Difficulty: not as difficult	**Grading:** v2 a3 II	**Total time:** 1h2
Approachtime: 2min	**Tourtime:** 45min	**Returntime:** 15min
Altitude entry: 460m	**Altitude exit:** 380m	**Delta Altitude:** 80m
Canyon length: 450m	**Highest rapell:** 45m	**Amount rapells:** 7
Transport: on Foot	**Rock type:**	**Drainage area:** km²
Season: January - December	**Orientation:** West	**Best Time:**
Rating: ☆ 2.1 (1)	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:
§ Regulated,

Gear:

Summary: (machine translated)
Fun short descent with lots of possible jumps and a long slide, also suitable for beginners and children

Hydrology:
Difíciles

Access: (machine translated)
How to get to Canaletes: We leave the AP-7 - Autopista del Mediteráneo, Tarragona to Valencia - shortly before reaching the Ebro and take the C-12 northwards to Tortosa (not quite 20 km to the town center). Once in the town, continue north on the C-12 towards Lleida. About 3 km after the town of Xerta (and 14.5 km after Tortosa town center), turn left onto the N-230b towards Gandesa. After another 7.2 km, turn left again onto the T-333 towards Valderrobres. Not quite 14 km after the last junction, we come to a T-junction where the T-334 turns off to the right in a northerly direction towards Horta de Sant Joan.
However, we continue on the T-333 for another 270 m before turning left onto the road heading south towards the mountains. But just 270 m further on, we turn left onto a dirt road towards El Ventador, signposted "Salt de Sotorres et El Ventador". The track leads into the valley of the Riu de Canaleta and up the slope on the other side. 2.2 km after the bridge (and 4.1 km from T-333) - we ignore two dirt tracks on the left - we come to the ford through the Cubars. We park our car here.
