Summary: (machine translated)
Canyon in the shadow of the Sallena, very slippery but aesthetic and entertaining for its multiple skills, slides, ...
The final part we can save it and leave by the bridge. We only have the rappel to the Cinqueta and we must be cautious with its flow.
Better to enter by the right tributary, Bco Pardina.

Hydrology: (machine translated)
It is very open, you can leave at almost any time.

Access: (machine translated)
We are located in Ainsa (N260), we will take the A138 towards France through the Bielsa tunnel. After a few kilometers we will pass through Labuerda and at pk57 we arrive at Escalona. We will continue towards France passing through Lafortunada until the detour to the valley of Chistau/Gistaín (A2609).
We will follow the road towards Plan/Gistaín until we reach San Juan de Plan, we will pass it and at the first sharp bend to the left there is a track straight ahead. This track takes us to Biados (Posets-Maladeta Park panel).
We will go up the track for about 6 kms until we reach the Hospital de Gistain parking lot, just before the bridge. There are signs on the right

Approach: (machine translated)
Along the PR towards the Viciele Bridge and the old Hospital we will go up to the "pista" where we cross the Sallena Bank. We will follow this track until we arrive at the Viciele huts. Here we will see the head of the ravine and a little further its tributary Bco Pardina.
In a right curve we will see a path that descends to the bank. If we cross it, it will also take us to Pardina (better option to begin the descent).

Tour: (machine translated)
Open descent with no major difficulties except for the slippery terrain.

Return: (machine translated)
When you reach the Vicielle bridge, you can turn left onto the uphill track.
If we go down to the Cinqueta, after 50m we have the exit to the parking.

Aesthetically boinito canyon, but very slippery and the progression is heavy, combine it by entering the canyon La Pardina. (machine translated)
