Specialities:

Gear:

Summary: (machine translated)
Nice way to access the Mirabal making a couple of rappels over the gorge to access in the middle of the descent. We must take into account the flow of the Mirabal because we will have to continue the descent through it.

Hydrology: (machine translated)
No leakage after the first rappel

Access: (machine translated)
From Ainsa we will go towards France (A-138) to Hospital de Tella, where we will leave the car.

Approach: (machine translated)
We must go up the PR-HU39 (right bank of the Yaga) towards Escuaín. The ravine to descend is just beyond the middle of the access to Mirabal next to a characteristic esplanade.

Tour: (machine translated)
A first part with rappels and a second part in which we will walk through a chaos of blocks to the course. Beautiful views on the descent to the river.

Return: (machine translated)
It is carried out by the Mirabal.

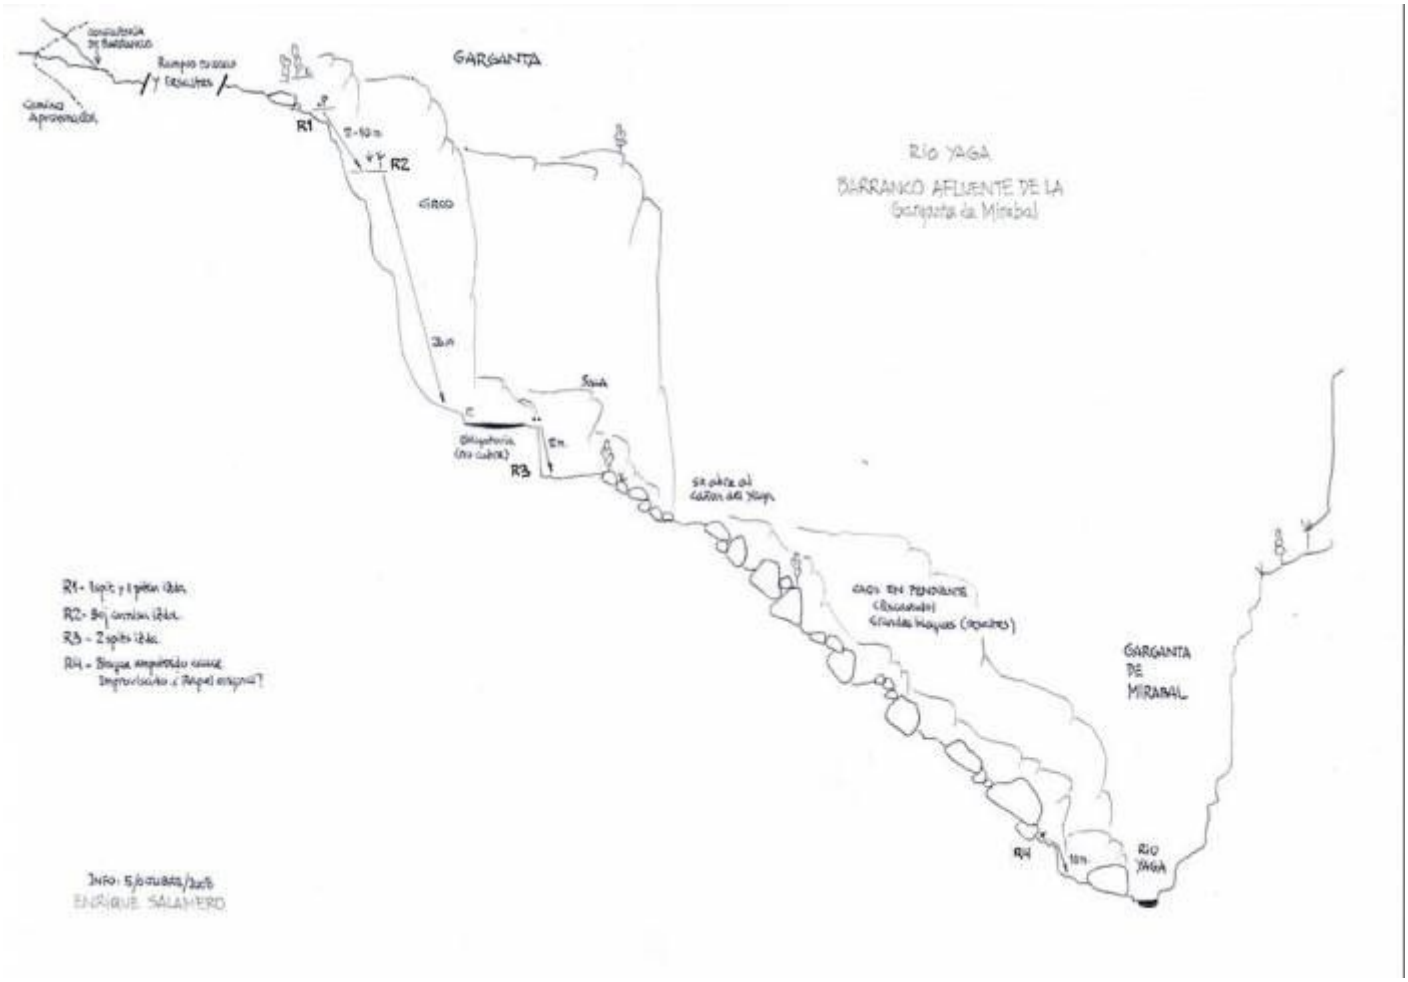

Coordinates:
Canyon Start 42.5476 0.1639
