Specialities:

Gear:

Summary: (machine translated)
Nice water canyon, boxed, with many jumps, slides and a single rappel. Necessary combination of cars, except for hard javelin.
Except for very dry summers we will always have a permanent flow that keeps the pools very clean.
Actually the ravine is in Jaén but the access is from Albacete. The access track to the cortijo de Espinea is better with high cars.

Hydrology: (machine translated)
In the first part

Access: (machine translated)
We have to be located in Yeste
By the A63 we will go up the Segura river to Parolís (24kms). Here we will leave the car of return.
We will return to take the Alcantarilla detour and we will go up to Alcantarilla de arriba from where the road continues as a track, passes the Gimeno pass and, with the valley on our left goes up the stream, for 7.5kms we will continue until a track comes out on the left that goes down to the farmhouse and the Espinea stream. We park here.

Inmediato

Nice and simple playful descent.

Return: (machine translated)
