Summary: (machine translated)
Wild ditch in granite rock, scenic, towards the exit some more attractive passages.

Access: (machine translated)
We head for the village of Bocognano on the N193 (Ajaccio - Corte). Either about 40km from Ajaccio or about 41km from Corte over the Col de Vizzavona (1183m above sea level). At the eastern exit of the town, we follow the sign "Richiusa" and take the small road downhill in a northerly direction. After 950m we turn left downhill a few meters before reaching the hamlet of Busso and after another 700m we come to a large parking lot on the left (below) the road. Here we park the car.

Approach: (machine translated)
We cross the Gravona (550m old) to the northern bank and follow the "boucle d'u nidu à u corbu" hiking trail. We have climbed the embankment and take the path to the left at the fork, which runs alongside the Gravona. After a good 10 minutes, we come to a fork in the path and turn right (uphill). Where the path begins to descend again in a marked leftward haipin bend (675m alt.), we take the inconspicuous path that runs uphill through the maquis. At an altitude of about 750m we pass a rocky ridge (see photo) and immediately after this we descend to the left. Only indistinct tracks lead down through the dense maquis into the streambed (730m old).
If you want to head for the upper entry at 990m alt., continue along the overgrown path until it reaches the stream at about 820m altitude (not verified, but marked on IGN map, garden shears essential). There you change to the orographic right-hand slope and climb over the rocky ridge to an altitude of a good 1000m. Here you will find a descent option to the stream. In this attractive upper part there are slides and a narrow section with a C32. Jourdan/Fiorina first descend to the lower entry and from here head for the upper entry on the orographic right side of the stream. Additional time required for access about 1.5 hours.

Tour: (machine translated)
See video and photos (entry here at about 780m altitude)

Return: (machine translated)
Shortly before reaching the Gravona, we take a path to the left (red-orange markings) that leads us along the Gravona, initially up the slope and upstream (ruined house). Walking downhill again, we meet our access path and follow it back to the car.
