Summary: (machine translated)
Rappel canyon as a side approach to the Maglia (for the descent in the Maglia, see the description there - from the sinter slide).

Hydrology:

Access: (machine translated)
From the Ventimiglia highway exit, drive up the Roya valley to Breil sur Roya. At the exit of the long village, turn left onto the N 2204 towards Sospel. After 2 km, a small road branches off to the right up the orographic right-hand slope of the Maglia. After a tunnel, you reach the bridge over the Morghe with limited parking facilities.

Approach: (machine translated)
At the bridge, turn right directly down into the stream

Tour: (machine translated)
A sequence of rappels of varying lengths down to the Magglia, which is reached before the grotto.
The high rappel has now been drilled a little more rope-friendly. First rappel 20m to the belay already visible from above just before the short slide towards the edge. Here set up a rope traverse over 4 anchors to the hanging belay on the right. Then rappel 60m from the hanging belay into the pool. It is very difficult to reach this belay directly from above.
On the last rappel into the Maglia, you can choose a less delicate rappel option on the right if the Maglia is full of water.
Now go through the grotto and path up to the right at the signpost to the access road.
You can also continue along the maglia, but you should then park a second vehicle at the bottom of the Roya valley. Or you can park the one available vehicle at the top of the Maglia parking lot, then walk down the road to the entry to the Morghe and after the Maglia take the mule path on the orographic left side back up to the car (keep left at the fork in the path).
It is crucial to check the water level of the Maglia beforehand, otherwise you could be in mortal danger in its whirlpools up to the grotto. However, the danger should no longer exist after the gravel has been removed by the mudflow (2020).

Return: (machine translated)
About 100 m after the grotto in the Maglia, get out on the right at the marked emergency exit, up to the road and right up to the vehicle (see also "Route description!").

Little water at the beginning, dry at the end. 1 pool that doesn't look so great anymore, can be roped around orographic right. Nice tour together with Maglia. (machine translated)

Automatisch importiert von Descente-Canyon.com für Canyon Morghé Ça coule sur les 3 premières cascades en petit filet. Ensuite c'est sec. Les vasque sont claires au début puis croupis en bas. Mais on arrive a les éviter facilement.Enchaîné avec la fin de la maglia qui est en DC. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2236/observations.html)

Nice entry into the Maglia. However, I would also recommend leaving the second car at the exit of the Maglia. The way back from the exit is 20 minutes uphill to the road and then back to the car. (machine translated)

Automatisch importiert von Descente-Canyon.com für Canyon Morghé Ça ne coule pas beaucoup dans les rappels, mais les orages ont nettoyé les vasques. On enchaine les rappels, équipement très bon, attention aux possibles coincements de corde. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2236/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Morghé Un bel encaissement avec des grandes verticales. Petit filet d'eau et quelques vasques pleines pour se rafraîchir. ATTENTION certains amarrages présentent un risque de coincement du 8 en butée.Ça ne coule pas sur la fin. (Désormais un passage obligatoire pour faire la seconde moitié de la Maglia.)
