Summary: (machine translated)
Varied rappel canyon

Hydrology:

Access: (machine translated)
From Lecco up into the Valsàssina and via Ballabio to Introbio (center). At the entrance to the town (16.7 km from the center of Lecco) we park our car in the parking lot in front of the road bridge over the Acquaduro.
P.v.Duin also describes a possible shuttle service.

Approach: (machine translated)
We cross the stream on the road bridge, keeping to the right after the bridge, we meet Via per Bandino and leave it on sentiero n. 25 to Rifugio Buzzoni. It leads us steadily uphill. At 850 m a.s.l. we have temporary contact with a forest road and continue climbing. After passing a penstock, we keep to the right at the following crossroads and come to some houses, where we descend into the streambed.

Tour: (machine translated)
The canyon begins with many small slides, then rappels with the C 46 as the highlight. The latter now has a climber.
After the bridge small-scale with slides and smaller rappels as well as some jumps. Commercially used here.

Return: (machine translated)
Once a trail is visible on the right side of the riparian terrace, exit onto it and head downstream to the car.
