Not necessary, but there is

Access: (machine translated)
On the TV3421 that goes to Roquetes, just before Mas de Barberáns, at pk 12.1 we have a detour "La Vall".
After two kilometers we have a detour, we take it to the left and continue for almost 2 kms until just before a left turn where the track crosses the Regatxol ravine. There is a cistern, it is the point where we park the return car.
If we have an access car we will continue 2 km until a sharp right curve over our ravine.

Approach: (machine translated)
With only one car as described for the access car. In both cases the access from the curve is immediate.

Tour: (machine translated)
Easy with only 3 rappels, the last one being the longest and in a cantilever.

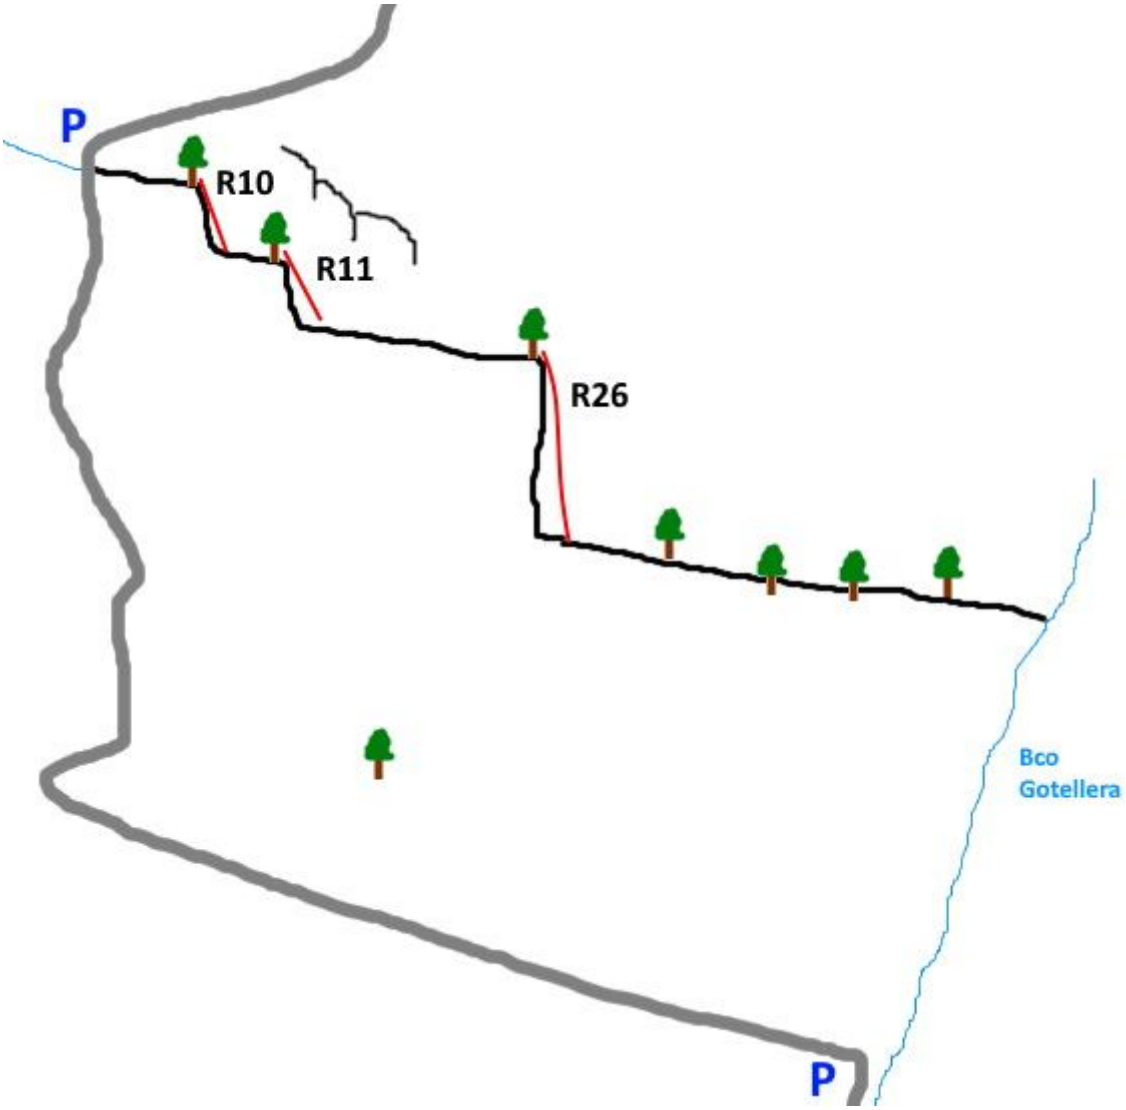

Return: (machine translated)
When we reach the Gotellera ravine, we will follow the dry riverbed (there is a path on one side) until we reach the junction with the track where we have parked.
