Summary: (machine translated)
Simple and short canyon in which we can also go caving in the Cova D'en Salvi.

Hydrology: (machine translated)
Impossible in the circus

Access: (machine translated)
Take the C63 or the C37 to Sant Esteve d'en Bas. Here we turn on the C153 towards Rupit until Coll de Condreu. We have two options, we turn left to the Coll de Maya and park.
Or we continue and soon we get into Susqueda, go down and continue along the track to the stream of l'Om and park.

Approach: (machine translated)
From the coll de Maya through the meadow on the right to the head of the cirque.
From the Susqueda track it is almost immediately down to the stream to the cirque.

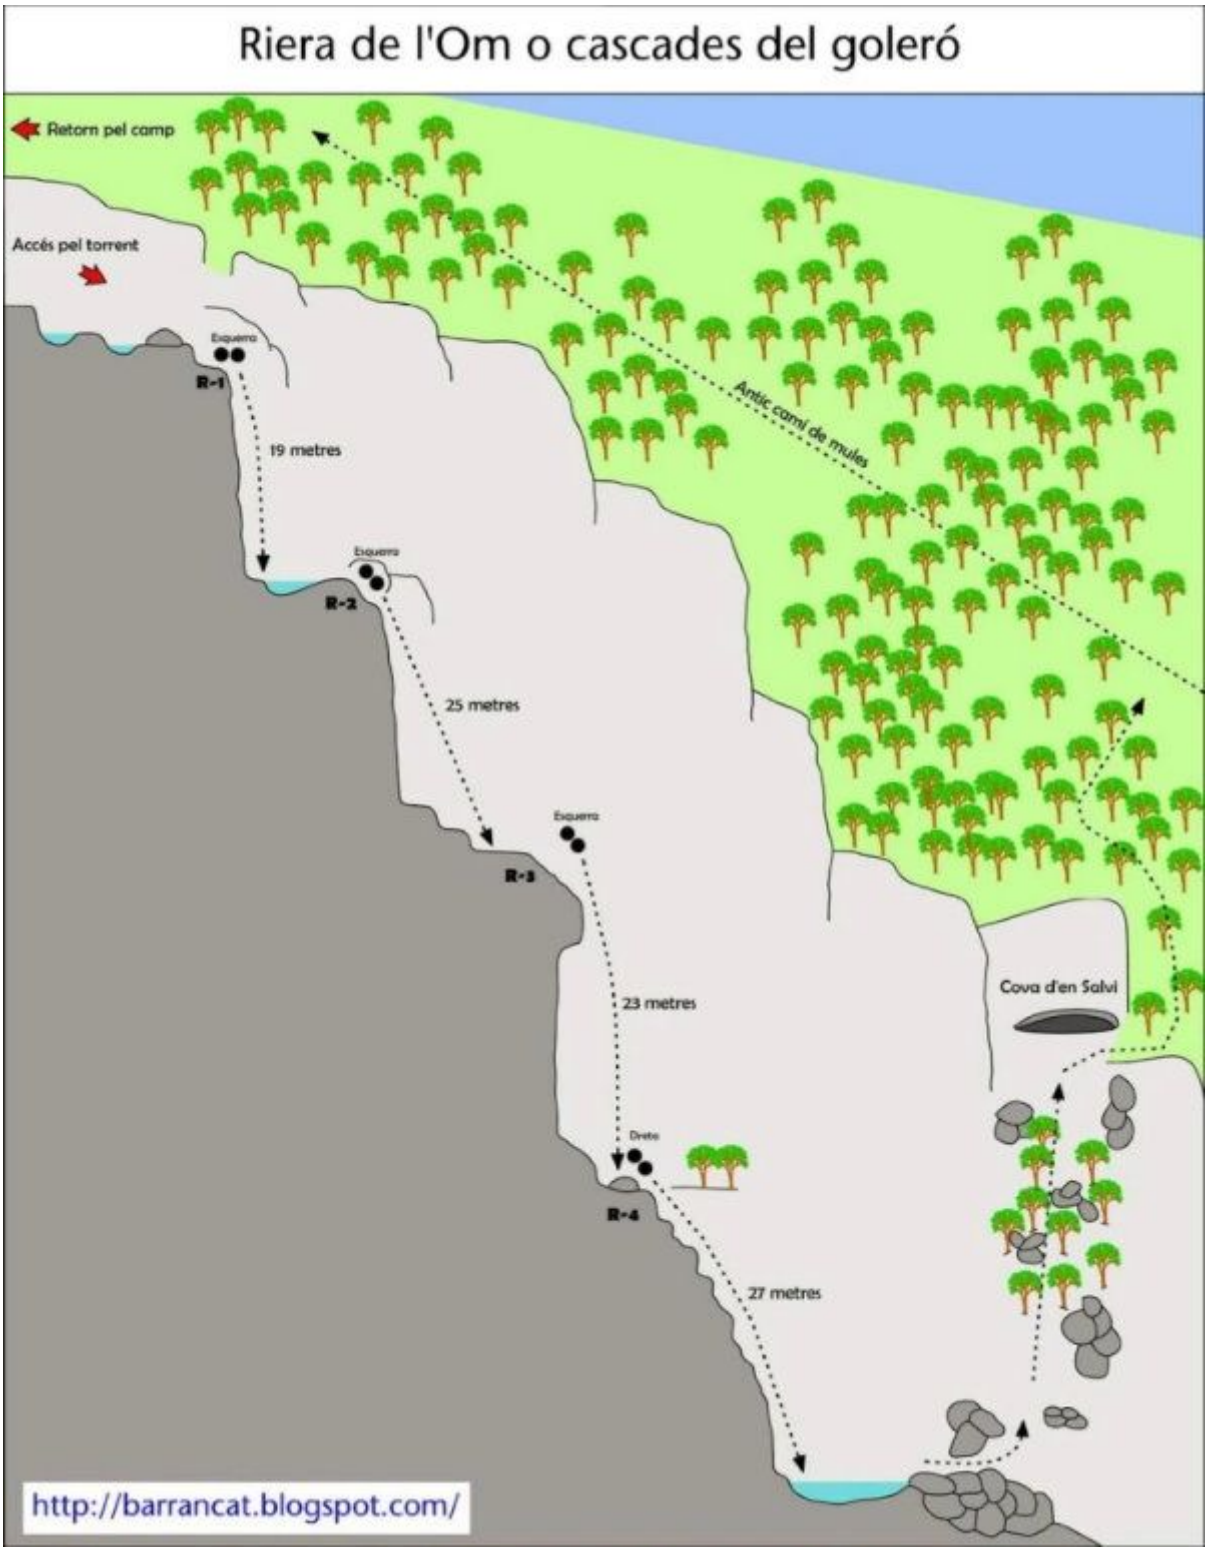

Tour: (machine translated)
Short and beautiful descent with 4 rappels in the cirque. Better with water

Return: (machine translated)
At the end of the cirque we turn left through the blocks and climb towards the cave. If we continue upwards we reach an old path that leads to the meadow. Depending on where we have left the car we will go to the right or left.
