Automatisch importiert von Descente-Canyon.com für Canyon Túnez Thigh deep pool at the start. And a rotting animal / maggot mess above the final rappel (but you can avoid the water). Very pretty, excellent equipment. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2538/observations.html>)

Access trail is not that steep or hard as some mention. Also, we did not care to descend steeply into the gully, just followed the gentle hiking trail and left down into the river bed, all the while enjoying scenery and best hiking terrain. Grand finale in washed white limestone.
