Summary: (machine translated)

Commercially managed deeply incised hiking, jumping and swim canyons; information and guided tours at nevidio.canyoning@gmail.com www.nevidio-canyoning.com; check water level at entry (water level should be below 7 at the water level gauge!); large catchment area; Grabovica tributary also accessible; many slippery walking and downclimb passages; several narrow passages and downclimbs; no emergency exit; cold water; from the halfway point the more beautiful part of the canyon begins (similar character to Strubklamm near Salzburg).

Hydrology:

Access: (machine translated)

From Šavnik take the main road towards Kpaj/ Žabljak. Then turn left at the signs towards the Jatak, Nevidio restaurant and follow the narrow mountain road uphill. After the restaurant, the road descends. Follow a few serpentine bends until you reach the large gravel parking place on the left (sign Kanjon Nevedio) (parking lot for campers only).

Approach: (machine translated)

At the signposted Nevidio parking lot, follow the path over the first wooden bridge from the left tributary Grabovica (vertical canyoning tour). After a short while, there is a second wooden bridge over the Nevidio. Then follow the path on the right-hand side of the stream until you reach the plaque with the historic first ascent in 1965. This is also the entry point to the canyon, where the guide charges a local fee for commercially guided tours.

Tour: (machine translated)

The canyon begins with a longer walking passage interrupted by smaller downclimbs and pools. After a while, you come to a narrow section (swimming channel) of about 100m with clamping blocks. Here you first downclimb skillfully to the right and then swim. Shortly after the swimming passage, there is a blockage with a way through between the rocks + a small jump. Then comes a small narrow section with swimming passages, followed by a walking and climbing section. At the next large blockage, you search in vain for an anchor. Here you have to skillfully downclimb over the remains of the bridge and boulders. From here, the canyon becomes more interesting. Several steps with possible jumps into beautiful deep pools follow without much distance. The 20m ropes can normally be dispensed with. After the last 5m possible jump into large pools, the canyon opens up. The tour exits at approx. 740m (EXIT on the rock face).

Return: (machine translated)

At the point where you can read "Exit" on the rock face, climb out of the canyon on the right at approx. 740m. Follow the marked path steeply upwards through the forest. After some time/meters you come to an open area with a beautiful view of the mountains and a deep view into the canyon. From here, the path is not far from the asphalt road, which you follow until just before the bridge. Before the road bridge, turn left down to the stream. Now follow the access path next to the stream back to the parking entry.
