Specialities:

Gear:

Summary: (machine translated)
Dry ravine except for heavy rains. With two cars access and immediate return. It is a simple and very short canyon.

Hydrology:

Access: (machine translated)
We will be located in the town of Figueroles on the CV190 from Alcora. At the entrance to the village at the traffic circle we take the Cami de Masset on the right.
At the end of this street we take the country road that goes up to the right towards the bridge of the Virgen del Carmen, we cross it and continue up to a sharp right curve with a bridge over the dry ravine. Here we leave the car of return.
If we have an access car we will continue climbing with it through the zig-zags that go up, after the last sharp left curve we will reach a smooth right curve with the ravine on our left. We park.

Approach: (machine translated)
With a car we will go up the track and in the same place as if we had parked, we will go over the cuttings to the dry riverbed.

Tour: (machine translated)
Fast descent with only 4 rappels

Return: (machine translated)
When we reach the bridge, we will exit to the right.

Coordinates:
Canyon Start 40.1281 -0.2338
