Season:	**Orientation:** North	**Best Time:**
Rating: ☆ 3.8 (2)	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:
Ropes: 2x40m

Summary: (machine translated)
Impressive and long great canyon without exit possibility.

Hydrology:

Access: (machine translated)
From Oloron-Sainte-Marie, take the D-919, then the D-918 towards Tardets(-Sorholus). 1 km before reaching the village of Tardets, we join the D-26 and follow it for 13.2 km in a southerly direction (Larrau). Here - 2.6 km before Larrau and next to the "Auberge Logibar" - we park our car in a parking lot for hikers.

Approach: (machine translated)
Here we take the GR 10, which leads in a southerly direction to the Gorges de Holzarte and Olhadubie. We cross the Gorge Olhadubie high up on a suspension bridge. The path now climbs to about 750m above sea level, then branches off. We turn left, following the "Olhadubi" signpost (GR 10 variant). As we continue, we come to the Pont - Brücke - d'Olhabie, see: http://lagarafa.blogspot.com.es/2013/10/barranco-de-olhadubi.html Below the bridge, we climb into the stream.\nYou can also enter further below the bridge (roping in if necessary), quite close to the basin at the beginning of the great canyon.\nSee also https://www.wikiloc.com/canyoneering-trails/aproximacion-andando-barranco-olhadubie-18717898

Tour: (machine translated)
Great canyon with "run-in" and "run-out" (Holzarte). Watery, 24 rappels, underground "lake", no emergency exit from the great canyon, hardly any sunlight.

Return: (machine translated)
Clear footprints on the right bank show us the way to the GR 10, which we follow back to the car.

Coordinates:
Canyon Start 42.9894 -0.9072
Canyon End 43.0152 -0.9267

Automatisch importiert von Descente-Canyon.com für Canyon Olhadubie Encore un vautour sorti intact du canyon, puis direction Hegalaldia. Ayez un peu de cœur et arrêtez de passer à côté comme un péteux s'offusque d'un papier au sol sans même le ramasser. Prout ! (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2958/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Olhadubie J'ai trouvé ce canyon magnifique mais c'est une bonne mission. Fait à 2 en 8h avec un seul qui equipe. La marche de fin dans la rivière est effectivement longue et glissante. Le canyon, lui, n'est pas spécialement glissant, bien moins glissant que Phista fait hier en tout cas. J'ai posé deux mains courantes seulement, nombreuses sont celles qui sont inutiles ou qui peuvent être évités avec un Valdo. Des sauts et même des mini tobs. Un encaissement très marqué pendant longtemps, le plus beau canyon du pays basque et à coup sûr l'un des plus beaux des Pyrénées. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2958/observations.html)

2025-06-20 | System User | |🕮 |⚓ | ≋ Normal | 👍 Completed
Automatisch importiert von Descente-Canyon.com für Canyon Olhadubie Passage souterrain court mais il y a une désescalade sur un tronc d'arbre glissant donc on était contents d'avoir la frontale étanche. MC fixe de la C35 commence à s'user. Sublime! (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2958/observations.html)
