Summary: (machine translated)
Generally dry canyon, except after heavy rains. Perfect to combine with Herbesset

Hydrology: (machine translated)
Not required

Access: (machine translated)
We will be located in Morella, on the N232 towards Alcañiz.
Access to Bcos Mina and Herbesset
We go up to the port of Torre Miro and turn to Herbes and Castel de Cabres by the CV105. We will pass the Herbeset detour and at the pk 38.4 on the left hand side we will see a track (there is a light tower next to it). We go down this track (we have to pass a cattle fence and leave it closed), after 3kms at the fork we take left and soon we will see the riverbed on our left (about 500m) we park.

Approach: (machine translated)
Approach to Bcos Mina and Herbesset
With the access to Herbesset on our left we leave the track to the right until it ends. We will see a kind of path that skirts the cut of Mina and 200m further we can turn left and gently down to the riverbed.

Tour: (machine translated)
4 rappels to initiate people

Return: (machine translated)
After the confluence with the Bco de la Herbesset on the left, we will see some milestones on the left, we will follow them up to the top of the Herbesset ravine. We will go to stop at the head where we entered and go up to the track.
