Summary: (machine translated)
Interesting canyon, for the hidden and beautiful of this high mountain area. Really its greatest interest is the final waterfall of 50m fractional and to be able to combine it with the Montgarri gorge.
To complete

Hydrology:
-

Access: (machine translated)
We must be located in Baqueira.
From the Val d'Aran by the N230, or from France by the N125 to Vielha and go up to the Bonaigua.
From Sort side crossing the Port de la Bonaigua.
Once in Baqueira we will go up to Beret, when we arrive to Pla de Beret the road ends and we will have the track that takes us to Montgarri in front of us. It is a track for any type of car, follow the signs to the refuge of Montgarri, where we will park. Great place to sleep, eat, spend the day, ...

Approach: (machine translated)
Access to Bcos Lastoar and Montgarri
By the path on the orographic left of the Noguera Pallaresa, we will go up to a borda (1.5 kms) and turn north through the Arriu deth Horcalh gorge. We will go up this beautiful gorge for another kilometer and a half to a bridge that crosses the river to the right bank. And by this bank, by a little marked footpath, another kilometer approx. until just the exit of the Arriu deth Lastoar, from where we will see the beautiful final cascade.
By the orographic left of the Lastoar we will ascend by another small path until surpassing the small gorga of our ravine to about 2070m of altitude.

Tour: (machine translated)
Somewhat fattened, very alpine, with very cold water and an impressive final waterfall.

Return: (machine translated)
Along the access path
