Country: España / Spain **Region:** Cataluña / Catalunya **Subregion:** provincia de Lérida / Provincia de Lleida
Town: La Torre de Cabdella

Difficulty: not as difficult	**Grading:** v3 a3 II	**Total time:** 1h30
Approachtime: 20min	**Tourtime:** 1h	**Returntime:** 10min
Altitude entry: m	**Altitude exit:** m	**Delta Altitude:**
Canyon length: 700m	**Highest rapell:** 19m	**Amount rapells:** 5
Transport:	**Rock type:**	**Drainage area:** km²
Season: June - August	**Orientation:**	**Best Time:**
Rating: ☆ 0 ()	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
Short canyon, fun, very slippery and with a lot of water movements if we do not choose the right flow. Perfect for summer and combine it with Riquerna.

Hydrology: (machine translated)
On the bridge

Access: (machine translated)
On the N260 between Pont de Suert and La Pobla de Segur, at the height of Senterada we turn off on the L503 to the Torre de Cabdella. We will continue along the same road to the village of Cabdella, just before the Cabdella's curves, the rivers Riqüerna, Filià and Flamisell meet, on the left there is an esplanade where we can park.
If we have access car we will continue to cross the village and pass over the bridge where we can see the flow, and another 700m later we will reach a signpost (from the return car is almost 2kms). We parked

Approach: (machine translated)
By the detour to the bridge, you only have to go down to the riverbed.

Tour: (machine translated)
Entertaining descent, very slippery
Danger: Between the R4 and the R5 there is an overhang, which forms a slide of about 5 meters, at the end of this is formed a dangerous rebound, in which there has already been a scare.
also behind the slipstream is created a small drosaje that normally does not involve problems.

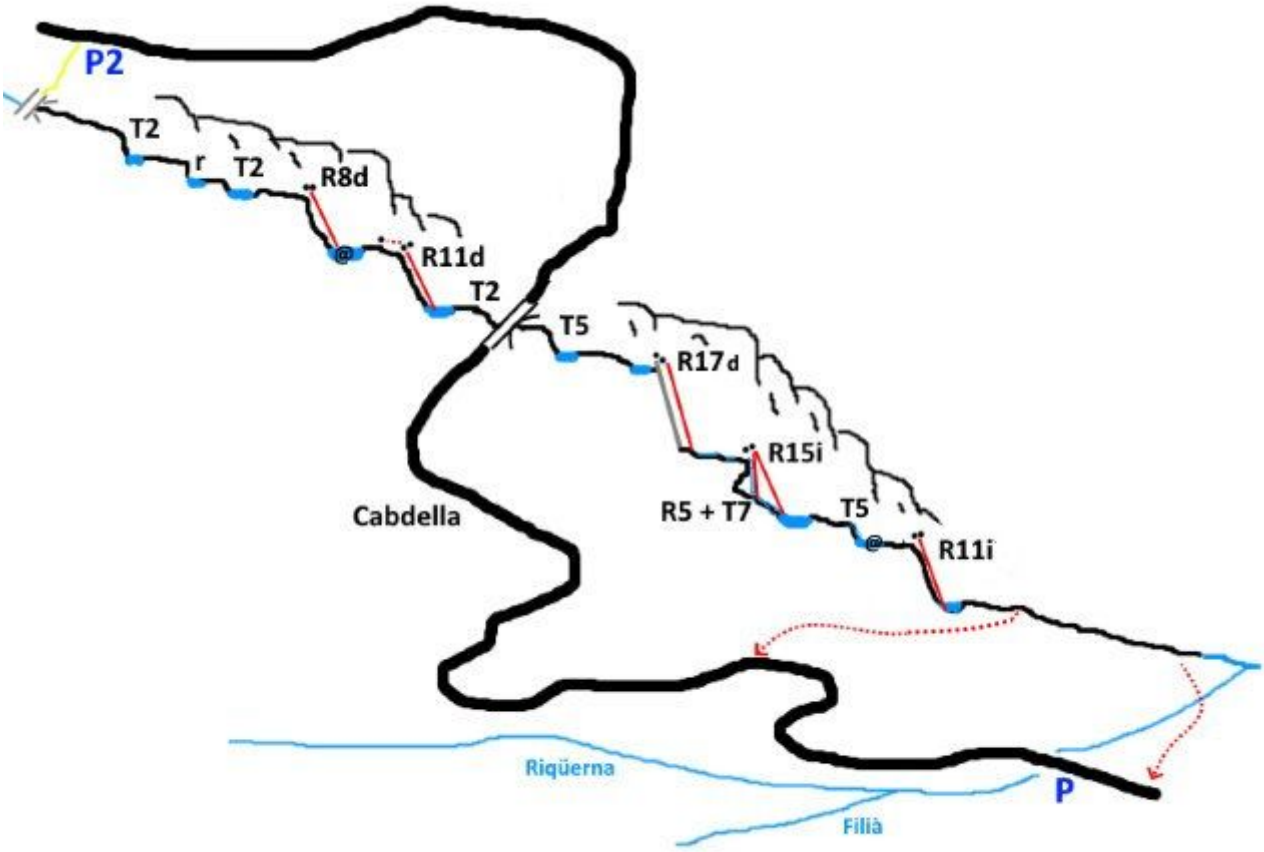

Return: (machine translated)
When the walls lose height we can exit to the right to go up to the road.
Another option is to continue along the river until it receives the contribution of Riqüerna on the right and there is almost immediate ascent to the road.

Coordinates:
Canyon Start 42.4715 0.9934
