<b>Specialities:</b> suitable in rainy weather,		
<b>Gear:</b> Ropes: 2x30m		
<b>Summary:</b> (machine translated) Nice tour when the classics have too much water. For a long time you have to fight your way alternately through wood between the rappels, but the last rappel parts make up for it.		
<b>Hydrology:</b>		
<b>Access:</b>		
<b>Approach:</b> (machine translated) Follow the hiking trail uphill and walk through the forest to the Robert stream at an altitude of 540m.		
<b>Tour:</b> (machine translated) At the beginning there are parts that are interrupted by walks. At the exit comes the only more serious gulch with 6 rappels in a row.		
<b>Return:</b> (machine translated) Go under the Via Meschini bridge and exit the stream on the right-hand side (before the railroad bridge). Or, swim out of the lake on the right until you reach the public shore (100m)

2025-10-05   Massimo Loriato   ★★ ★   📖 ★★   📌 ★★   🌊 Normal   🍀 Completed Flow in picture medium, no rain in the last week but quite all day in the week before, that makes some pitches very nice cause passing exactling in the water or right behind it. Three main different interesting sections, unluckily interrupted by many logs in between, in particular between the first two parts, and a really beautiful final section.		
2024-05-12   Bubtore   ★★ ★   📖 ★★   📌 ★★   🌊 Normal   🍀 Completed Not the most continuous canyon, but we still used up all the anchors we came with on the first ascent. And you exit in the lake below. (machine translated)
