Specialities:

Gear:

Ropes: 2x30m

Summary: (machine translated)

Long integral descent with an easy part at the beginning - described here - and a more challenging II. Parts.

Hydrology:

Access: (machine translated)

From Corinth to Nestani and a little further uphill:

Approach: (machine translated)

Head downhill in a northerly direction until you reach the stream, as close as possible to the beginning of the narrowing.

Tour: (machine translated)

The descent begins in a narrow, increasingly deepening canyon. After 4 or 5 rappels, there is a marked exit option to the right (steel cable) or left (better right, as the path leads back here). This is followed by 5 more rappels, some of them higher, with certain technical requirements.

Return: (machine translated)

A red arrow to the right shows the exit. Red dots mark the way to the path that leads back up.

Great canyon, if you're not disgusted by the thousands of millipedes. (machine translated)
