### Specialities:

Gear:

Ropes: 2x75m, 2x30m

**Summary:** (machine translated)

Rappel canyon with several complex stands

**Hydrology:** (machine translated)

Tends to be dry. Generally good amount of water after heavy rains when all other canyons have too much water.

**Access:** (machine translated) Southern entrance to Fortogna

**Approach:** (machine translated)
A hiking trail leads up to the canyon

Tour: (machine translated)

Starts with a multi-pitch consisting of a short rappel that is drilled very deep and a medium-high rappel (right around the corner)

Short run, then short rappel from the tree. It is recommended to use a sling/carabiner at the edge.

Rope traverse to the  $\sim$ 70, which has one between.

Short run, rappel from the tree. Some downclimbs and another C15 lead to the final waterfall, for which there is a rope railing point and 2 belays. The belay behind the edge has a better rope run than the upper chain - using the front chain extends the rope requirement to approx. 85 meters!!!

Finally, 10 meters of rope traverse and 25m of rappel on a sharp edge.

**Return:** (machine translated) Tour exits directly at the car

Another great tour after a lot of rain. It seems I accidentally rated it too high the other day: no slides, no jumps, no pools, but still a great canyon with water. Short tour, high rappel, beautiful view. (machine translated)

Other canyons were not accessible due to heavy rain. This waterfall had the perfect amount of water thanks to the rain. For information about the canyon, see https://www.christian-balla.de/Fortogna Video about the tour: https://www.youtube.com/watch?v=zCQhZ10k1kk (machine translated)
