Country: España / Spain **Region:** Asturias, Principado de / Principality of Asturias **Subregion:** Asturias **Town:** Llanes

Difficulty: not as difficult	**Grading:** v3 a3 IV	**Total time:** 2h30
Approachtime: 1h	**Tourtime:** 1h	**Returntime:** 30min
Altitude entry: m	**Altitude exit:** m	**Delta Altitude:**
Canyon length: 750m	**Highest rapell:** 26m	**Amount rapells:** 6
Transport:	**Rock type:**	**Drainage area:** km²
Season: June - November	**Orientation:**	**Best Time:**
Rating: ☆ 3.8 (1)	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
Nice and simple cave canyon, if we find it with the right flow. There are several possibilities of returns.
Possibility of combining cars but the track is not in very good condition.

Hydrology: (machine translated)
Inside the cave only 1

Access: (machine translated)
We will have to go to the village of Purón, just at the entrance of the village we take the small road that goes down to the river, from here there is a track that we will follow as far as we can or we park here directly.
With two cars, the second car will follow the track for two kilometers to a hill where we have the sinkhole on the right.

Approach: (machine translated)
We follow the track for 2kms until we reach the hill and then we go to the right side of the valley in search of the sinkhole/cave.

Tour: (machine translated)
See cave topography

Return: (machine translated)
We can exit to the left as the cave ends to a path and from there along the track.
Another option is to follow the riverbed and do the 4 rappels of the river and then take the catchment on the left that leads us to a track that takes us down to the village.
The third option is to exit to the right in the river to go up to the track (more difficult).

Coordinates:
Canyon Start 43.3751 -4.7190
