Morge

Canyon de la Morge

Create: 2023-03-09 20:52:16	**Update:** 2025-08-16 17:35:50	**Print:** 2026-11-10 02:11:40
Country: Schweiz / Switzerland **Region:** Kanton Wallis / Canton du Valais **Subregion:** Bezirk Sitten / Sion District **Town:** Conthey		
Difficulty: a little difficult	**Grading:** v3 a4 IV	**Total time:** 3h20
Approachtime: 10min	**Tourtime:** 3h	**Returntime:** 10min
Altitude entry: 930m	**Altitude exit:** 760m	**Delta Altitude:** 170m
Canyon length: 2000m	**Highest rapell:** 15m	**Amount rapells:** 12
Transport: Car optional	**Rock type:** slate	**Drainage area:** 50.00km²
Season: August - November	**Orientation:** South	**Best Time:** 10-16 o'clock
Rating: ☆ 3.7 (6)	**Info:** ★ 2 (3)	**Belay:** ★ 2.2 (5)
Specialities:		
Gear: Ropes: 2x20m		
Summary: (machine translated) Relatively horizontal dark gorge with smaller rappels and possible jumps		
Hydrology:		
Access: (machine translated) We leave the A9 at Sion (whether exit Conthy, Sion-ovest or Sion-est) and take the road up to the Sanetsch reservoir. After some serpentines we pass through Chandolin. A few meters after leaving the village, we see the church of Notre Dame des Corbelins on the left of the road. From here it is another 1.6 km to the parking lot for the lower car, which is visible as such (see Google aerial photo).\n\nWith the second we continue uphill and after about 2km we cross the Morge on the Pont du Diable (905m altitude). After a right serpentine we come to a left serpentine and park the upper car here (see Google aerial photo).\n\nIf you don't have a second car available, 2.2km on foot.\n\nThe access can also be done via the orographic. right slope side of the Morge (Earth, Daillon).		
Approach: (machine translated) From the upper car we go down the slope to the bridge. Just before reaching the bridge, we descend steeply into the stream (handrails).		
Tour: (machine translated) Short walk, then dark gorge with smaller rappels and jumps, or slides. Then the gorge opens, from the right flows the Rogne to and we are already at the exit.		
Return: (machine translated) A small path leads up the left slope to the road (handrails).		
Coordinates: Canyon Start 46.2736 7.3244 Canyon End 46.2653 7.3197 Parking at Entry 46.2739 7.3230 Parking at Exit 46.2639 7.3203

Automatisch importiert von Descente-Canyon.com für Canyon Morge Ai commencé à nettoyer le haut et le bas du parcours :Sur le haut quelques coups de Meuleuse, pour enlever câbles et amarrages très vieux. Sur le bas ai effectué du tronçonnage surtout avant le toboggan saut à la dernière C8(qui passe nickel maintenant) mais encore du travail pour éviter des barrages aux prochaines crues !!!si jamais il y a des volontaires travail compliqué tout seul, je suis là jusqu'à mi septembre (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/23209/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Morge Pas mal de sauts passent bien attention aux chevilles dans les petits ressauts.. je dirais débit en Dc+? C'était une première pour nous ça poussait un peu par endroits mais aucun danger, une bonne roche qui accroche canyon juste magnifique! Équipement au top. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/23209/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Morge Un DC+, et un jolie canyon ! Apparition d'une eau trouble vers le milieu du canyon, mais pas de montée d'eau.Équipements RAS (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/23209/observations.html)

2024-11-02 | System User | |🕮 |⚓ | 〰 Normal | 👍 Completed
Automatisch importiert von Descente-Canyon.com für Canyon Morge Petit DC +. Eau qui se trouble vers le milieu du canyon (eau marron rapidement). Puis de nouveau claire en fin de canyon. Nous avons d'abord cru à un début de crue, mais pas de montée d'eau perceptible... les réchappes étant possibles dans nombres d'endroits vers la fin, nous avons achevé la descente et tout semblait normal. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/23209/observations.html)
