Short canyon but with some very interesting passages, including the big toboga, with one of the most beautiful pools in the area below. A belay is nonexistent so I climbed to a tree on the right and rappelled from there. V3A3II (machine translated)

Automatisch importiert von Descente-Canyon.com für Canyon Pacoulla rappel sur le pont pour l'accès, bien équipé - manque 1 point pour descendre le ressaut avant le toboggan, désescalade possible de la première difficulté (cordelette en place mais sans maillon rapide) , puis saut possible- peu d'eau, vasques un peu stagnantes (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/21011/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Pacoulla Descente en rappel depuis le pontManque un relais arraché par les crues au milieu..le premier ressaut se désescalade. Pour le 2eme j'ai rajouté une cordelette.En bas un des 2 points d'un relais à également été cassé par les crues.Le toboggan vaut le coup!La plus part du temps descente hors de l'actif.Petit fillet d'eau et eau dans les vasques un peu croupie. Automatisch importiert von Descente-Canyon.com für Canyon Pacoulla Départ du pont par un rappel de 15m en fil d'araignée. Il manque un relais au milieu du canyon (disqué), il est possible de faire un rappel 2m plus bas (lunule possible autour d'un bloc ou saut possible). Le toboggan vaut le détour mais sinon tous les relais sont hors d'eau et très loin de l'actif, c'est dommage.Parcouru en 1h15 sans se presser. Automatisch importiert von Descente-Canyon.com für Canyon Pacoulla Départ du pont, canyon un peu glissant, un point manquant sur un obstacle. Le grand toboggan est incroyable. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/21011/observations.html>)
