Summary: (machine translated)
Somewhat inconsistent character, beautiful scenic ambience, longer running routes, lots of downclimbing, some slides with fun potential

Hydrology:

Access: (machine translated)
From Cannobio on Lake Maggiore, take the SS631 increasingly higher over and parallel to the river Cannobino westwards towards Domodossola, Malesco. After 6.2 km we reach the junction on the left to the village of Scoraggio. 1 km further on we have reached the village. Free parking at the entrance to the village on the right.

Approach: (machine translated)
We initially follow the signs for Piazza, but later take the path to Alpe Badia. Here we descend across a large meadow in a south-easterly direction to a right-hand side stream of the Rio Scoraggio - entry.

Tour: (machine translated)
see photo album and video

Return: (machine translated)
When you reach the concrete path, turn right onto the path and you will reach your car in a few minutes. Alternatively, you can descend further down the stream to the mouth of the Cannobino (330m old). Here a few meters upstream and then left (orographic right) up to the footbridge. Now turn left (westwards) and follow the path uphill to the village of Calachina and, after crossing the Rio Scoraggio, back to the village of the same name.
