Specialities:

Gear:

Summary: (machine translated)
Dry ravine to the surplus of the neighboring Olla de Mel, a first part fattened and with a vertiginous R60, second part more open and of continuous dexterity. Better with a combination of cars
Regulated access: https://www.elbergueda.cat/es/la-aventura/barranquismo.htm
Permission must be requested at the park Tel.: 938 244 151 email: pncadimoixero@gencat.cat

Hydrology: (machine translated)
Yes, almost at the bottom, in the open part by a small path that crosses the descent.

Access: (machine translated)
We will be located in Saldes, for them between Berga and Puigcerdà, just before reaching Guardiola de Bergueda, after leaving the tunnel we have the detour to the left by the B400 to Saldes and Vallcebre.
Before reaching Saldes, just before crossing the bridge we have the detour to the right to Gresolet on a track. We get in here and follow the signs to the Sanctuary.
If we have two cars, we leave the return car in the parking lot of the sanctuary.
We continue along the track towards the Coll de Bauma, if we only have one car we will park here.
If we have access car we will turn left onto the track and climb about three kilometers, we leave behind the access to Olla de Mel, and park around the coll de Font Cerdana.

Approach: (machine translated)
Olla del Mel and Paller banks
With a car we walk up the track the 3kms that we would have done by car and we will see a watercourse that we follow towards the riverbed, we follow it until the cuts.

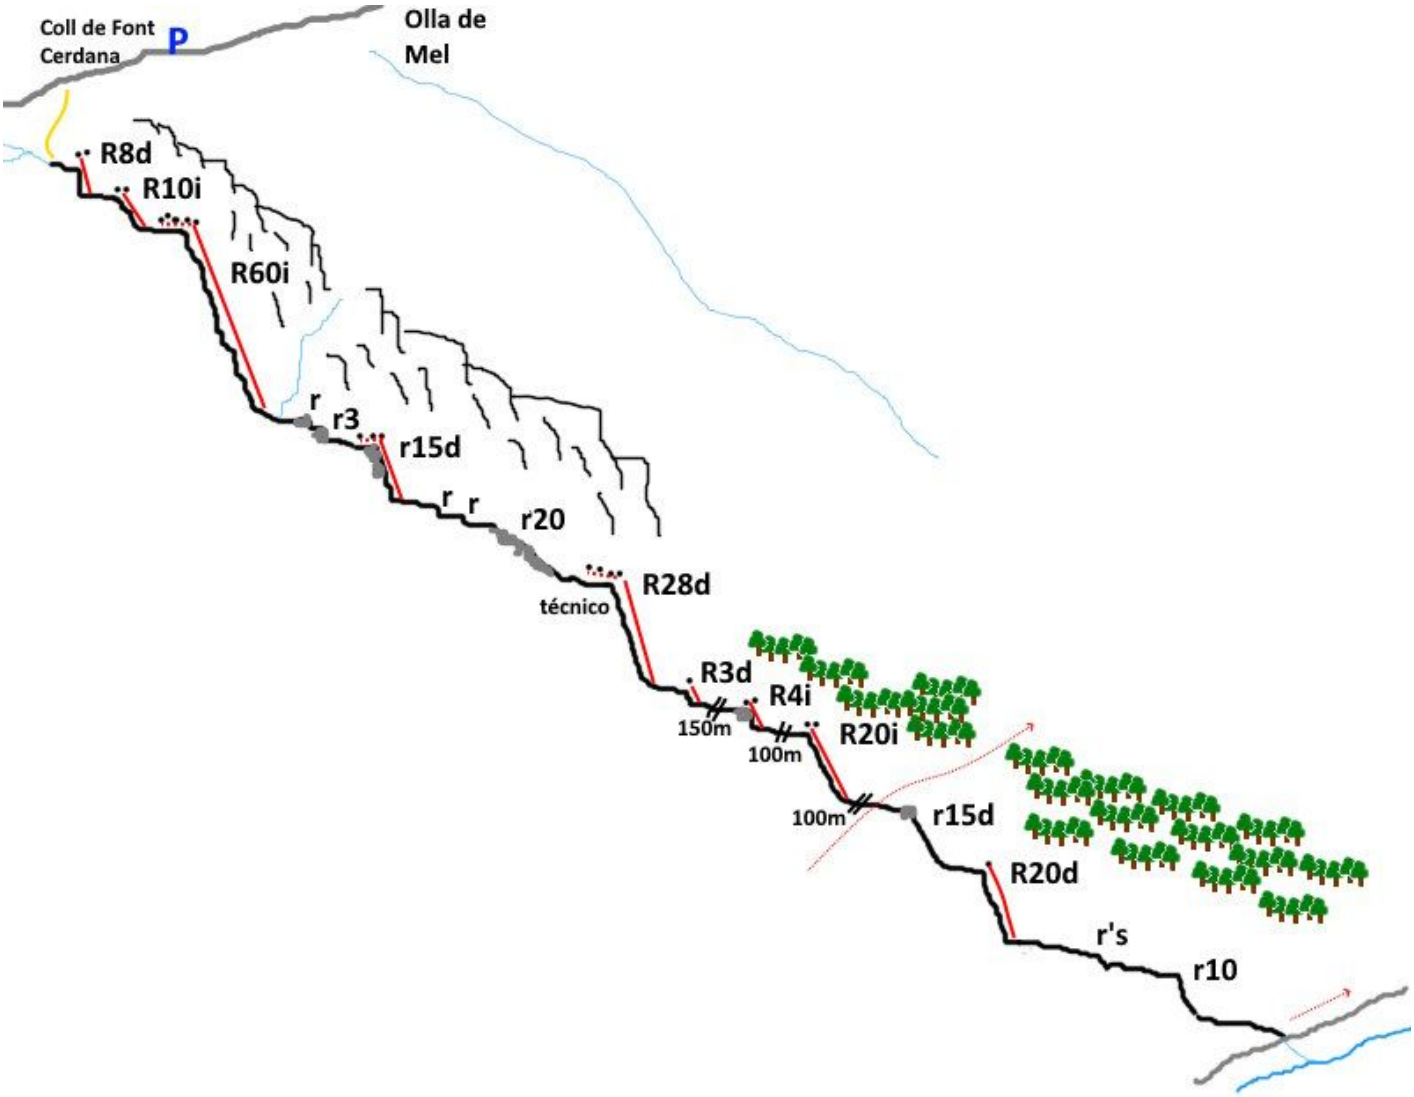

Tour: (machine translated)
A fattened first part, and then more and more climbing in an open and wooded area.

Return: (machine translated)
When we reach the track we will take it to the left to the sanctuary.
If we only had one car we will have to climb up to the pass, when we reach the bottom of the valley, in the sanctuary, we will see a path marked with dots that shortens the track to the pass where we parked.
