## **Hydrology:**

Access: (machine translated)

From Gonnosfaniga we take Via Pietro Bonelli and follow the sign "Santa Severa". At the chapel we take the road that runs first uin northwestern direction. After 950m we take the dirt road to the hamlet of Togoro. !,3 km after that we come to a junction where we turn right. Another 2.5 km further on a dirt road turns off to the left. Here we park the car for the exit.\n\nWith the second car we continue the track. In serpentines it goes uphill. 2,1 km after the lower parking lot we park the second car for the access.

#### **Approach:** (machine translated)

We take the slope down to the left and come directly to the stream (entry)

## Tour: (machine translated)

Lots of walking and downclimbing, 4 rappels (max. 28m), some slides (see in detail http://www.verticalsulcis.it/Outdoor/GutturuFenugu/RelazioneGutturuFenugu.pdf)

#### **Return:** (machine translated)

A few meters after the Canale de Urgua enters from the right, the canyon widens and a small forest covers the bottom. Here, on the left side of the stream, a clearly recognizable mule track begins to lead out to the approach road. This is reached at "P1".
