Specialities:		
Gear: Ropes: 2x120m		
Summary: (machine translated) Vertical rappel canyon with a challenging narrow section in the upper part.		
Hydrology:		
Access: (machine translated) From the Biasca highway exit, drive to the center of Biasca and park a car behind the train station (see coordinates) Take the 2nd car to the church in the village (Ciesa Pietro e Paolo). (Also possible on foot approx. 15min)		
Approach: (machine translated) From the parking lot, follow the path towards Riva, then the path towards Bédra del Vent (853m), then Nadro (alt.1240m); there follow the path towards the bridge (1260m).		
Tour: (machine translated) You start with C60, followed by C50, then comes a longer narrow section (be careful when the water level is high!!!! After the C120 (possibly divisible 70/50) there are some small abseils until the start of the lower part. >> Attention: the water level picture in the book Eldorado Ticino by Nizzola is only valid for the inferior part. For the narrow section in the Intermedio part, there is noticeably less water than the "max picture" in the book shows !!! <<

Automatisch importiert von Descente-Canyon.com für Canyon Froda (Intermédiaire) Eau plutôt froide jusqu'à la première 120m puis bien plus douce pour la suite. Nous avons dû rajouter une sangle sur un tronc bloqué au milieu d'une cascade pour ne pas avoir de problème lors du rappel de la corde. High water at the moment. Only the anchor of the first c70 was hard to reach, becease you need to cross the flow. After that all quite easy. The lower part was nice and sunny.

Automatisch importiert von Descente-Canyon.com für Canyon Froda (Intermédiaire) DC-. Mais c'est parfait pour ses grande longueur. Un peu des algues sur les 3 dernières cascades. C'était parfait avec les risques d'orage il y a pleins d'échapatoire. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22709/observations.html)
