Canyon length: m	**Highest rapell:** 15m	**Amount rapells:**
Transport: Car optional	**Rock type:**	**Drainage area:** 35.75km²
Season:	**Orientation:** Northeast	**Best Time:**
Rating: ☆ 4.5 (13)	**Info:** ★ 2.7 (11)	**Belay:** ★ 2.8 (12)

Specialities:
Fun canyon, § Chargeable parking,

Gear:
Ropes: 2x20m (2x20m/1x40m)

Summary: (machine translated)
Very beautiful canyon with emerald green cold water; very well equipped; €7,- for private mountain road; 1st part easy; 2nd part medium, 3rd part very long and demanding (pay attention to water level!); very nice and grippy gneiss and granite rock; most of the rappels are out of the water, but the canyon as a whole is very aquatic!

Aquapark-like fun canyon. Huge pools and lots of slides and possible jumps. Extremely well insured and heavily used commercially.

Hydrology: (machine translated)
Webcam with water level: http://www.valbodengo.com/d/phone/webcam.html

Access: (machine translated)
In the village of Gordona you drive to the church --> on the left behind the church there is a café where you have to buy a ticket for the private road for €7 --> then turn left at the church --> at the fork turn left --> then sharp bend (at the fork) right up --> next fork turn left up --> follow the road (direction Pra Prince) --> at approx. 820Hm before a sharp bend on the right, there is a parking lot --> park here --> after approx. 50m you will come to a motorcycle stop. up --> follow the road (direction Pra Prince) --> at approx. 820Hm before a sharp right bend, there is a parking lot on the left --> park here --> after approx. 50m there is a no motorcycle driving sign (left) with signs Mulattiera per Bodengo and Strada Carrozzabile per Bodengo (this is the way to get up from the bridge / way back).

Approach: (machine translated)
From the parking lot up along the road you get to the entry to the 2nd part --> before the small mountain village on the left over the road bridge of Bedolina (signposted parking lot Bedolina) (entry at about 870Hm).

Tour: (machine translated)
Walking and climbing passage about 50m. Short swimming section. Walking and climbing passage approx. 50m. Slide 3m or jump 3m. Short swimming section. Walking, climbing and swimming passages ca.100m. left. single bolts to the traverese rope. From the traverese rope R10 (left) + jump 5m or rappel 15m (left) After the pools emergency exit (nr.9, orange sign) left. glued anchor for belaying to the belaystation left R15 (left) (rope retrival from big boulder possible) The canyon narrows. Short swimming section. Walking passage approx. 100m. Pass large boulder. Emergency exit No. 7 (left) + small inflow from the right at the abseil point R18 (right) (at the 18m only with little water jump (or slide) in deep hollowed pools possible, as an exit facilitation is at the edge of the pool on the right a single piton where a rope can be attached). Siphon (can be bypassed on the right). Jump into large pools with a small swimming section. Emergency exit no. 6. walking and swimming passage. Climbing passage ca. 200m in open canyon. 2 small tributaries left. Narrowing canyon with overflowing boulders. Climbing and swimming passages about 80m. Emergency exit no. 4. very nice passage R10(r.) in pools. r. climb up via fixed ropes. Jump or downclimb in large pools ca. 5m. Walking and climbing passage ca. 50m. Emergency exit No. 3. 50m walking and climbing passage to short narrower gorge section. R15 (left) exit on rocky ledge or in current + short swim. Walking passages to the next rappel point R8 (right) can be bypassed on the left and downclimbed. Flat walking and climbing passage. Short swimming section in small pool. Single pitons on the left for belaying to the traverese rope or rappel on the right via glued anchors into hollowed pool and to the traverese rope over the current + R8 or S8. Short swim and downclimb over smooth polished rocks. Walking and climbing passage over granite boulders about 100m. Emergency exit no. 1. rappel left. 5m over fixed ropes. Large pool. left. single glued anchors for belay to belaystation. From chain anchor R10 (left) or S10 into large pool with current. r. climb over fixed rope onto large boulder.short rappel over fixed rope to belaystation R8 (right) or S8 (or S12 from above) short swim. Bypass large boulder on the right. Short climbing passage and jump from boulder into pool. Short walking passages approx. 50m to the last rappel point R10 (left) (rope ferry advisable in case of much water). Short swimming passages to the meeting with the Pilotera (stone bridge) (approx. 730Hm).

Return: (machine translated)
At the inflow of the Pilotera (approx. 730Hm) turn left up the trail steeply to the road and right back to the parking lot.

Automatisch importiert von Descente-Canyon.com für Canyon Bodengo Did only the lower part (3). Not much sun this time of the year, but flow correct and water not too cold. The bolt to exit the narrow part is half out of the rock, should probably be changed, alongside the fixed ropes which are damaged (on the 15m jump) or even broken (before the longer rappels) (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2533/observations.html)

Super nice water. The amount of water seems a lot at first glance. But the way the canyon is set up, there is still plenty of room. Photo of the dam in the village at the entry Bodengo 2 (machine translated)
