Summary:
Interesting, partly narrow, continuous and vertical route in the middle of an impressive forest landscape characterized by numerous centuries-old plane trees.
The gorge can be divided into an upper and a lower part, at 400 m 40.486642, 25.601818.

Hydrology:

Access:
Access to Inferior:
Take the northern coastal road in the direction of Therma. Continue towards Therma for approximately 200 m, until the first intersection (signposted "Taßépva To Tepúp'). Turn left and continue for about 1 km until the tavern ("Taßépva To TEQÚP"), where the road splits. Turn right and continue for about 200m until you reach a clearing next to the stream. Park.

Access to Superior, using a car shuffle:
For the upper car, take the dirt road just before the complex. Continue for 200 m until you reach the first hairpin bend on the left-hand side. You can park here - 4WD or similar required.

Approach:
For entry to superior: Continue uphill on the dirt road for about 2 km, leaving the antennas on
the right and going left at the next forks, until the end of the road. Take the obvious uphill path indicated by the blue marks and E6 signage. Cross the small tributary that you meet after 300 m. Continue for just over 1.2 km, always uphill, in a forest of oaks and ferns, until a fork (altitude 680 m). Take the obvious path on the left, downhill, until you reach the banks of the Tsivdogianni.

For entry to inferior: From the parking lot, follow the road uphill that crosses the residential area until it turns into a dirt road. Continue until you reach the two cylindrical water collection cisterns where you must turn left. Continue climbing until you reach a horse paddock where the dirt road turns into a path. Cross the fence and continue climbing through a thick meadow of ferns, and then walk alongside a black PVC pipe for a short distance. The path, used to go to the top of Mount
Fengari, continues climbing in zigzags and becomes increasingly clear. Continue until you reach a clear fork where you need to turn left onto the blue marked path. Continue along the slope, entering the Tsivdogianni valley, where the slope decreases. After a short stretch, leave the main path and take the faint trail to the left, still marked in blue, which approaches the stream gradually and in a false flat, until it meets the PVC pipe again. Continue taking the pipe as a reference and, after passing a narrow ledge, descend to the left into a gully until reaching the riverbed.

Tour:

Return:
Once you reach the last pool, where the stream flatterns out, take the obvious trail, marked in blue, which in a short time and along the riverbed, leads to the parked vehicle.

Automatisch importiert von Descente-Canyon.com für Canyon Tsivdogianni Accès : se rendre au dessus de Therma vers un centre de yoga où on gare la voiture.Longer le torrent et le traverser vers le petit barrage , quitter le lit du canyon et continuer jusqu'à retrouver une piste qui arrive vers un parc à chevaux . Le contourner par la gauche et on tombe sur des marques bleues qu'on suit jusqu'au canyon. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/21596/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Tsivdogianni Canyon court et enchaînant de nombreux rappels ! On a parcouru que la partie basse (altitude 430m). Les amarrages sont en bon état mais beaucoup de mono points. On s’est garé en haut de la route au-dessus de Therma. Le sentier commence par la piste puis il faut contourner un enclos à chevaux par la gauche. Suivre ensuite les points bleus qui vous mène à l’échappatoire du canyon !
