### Specialities:

#### Gear:

**Summary:** (machine translated) Rappel canyon, usually dry.

### **Hydrology:**

Access: (machine translated)

On the GC\_1 from Maspalomas to Arguineguin. After leaving the GC\_1 there and driving towards the center of Arguineguin, change at the next exit to the east side of the valley and drive northwards on the GC\_505 in the valley of the Barranco Arguineguin. After about 8 km on the GC\_505 you reach the town sign of El Horno. Right here we turn left and park our vehicle 200 m further on (150 m above sea level).

#### Approach: (machine translated)

We climb the ridge on the orographic right side of the Bco. pathless (up to about 360 m a.s.l.). Then we cross under the rock bar about 150 m to the left (in southern direction) and look for a suitable ascent possibility to overcome the rock bar. At the top, we go north again until we reach the bed of the barranco.

**Tour:** (machine translated)

9 vertical and mostly quite airy rappel.

**Return:** (machine translated)

After the last rappel (8 m) about 150 m out to the right to the car.
