Country: España / Spain **Region:** Aragón **Subregion:** Huesca **Town:** 0lvena		
Difficulty: not as difficult	**Grading:** v3 a1 II	**Total time:** 3h10
Approachtime: 50min	**Tourtime:** 2h	**Returntime:** 20min
Altitude entry: 510m	**Altitude exit:** 390m	**Delta Altitude:** 120m
Canyon length: 320m	**Highest rapell:** 30m	**Amount rapells:** 12
Transport: on Foot	**Rock type:**	**Drainage area:** km²
Season:	**Orientation:** North	**Best Time:**
Rating: ☆ 2.9 (3)	**Info:** ★ 0 ()	**Belay:** ★ 2 (1)

Specialities:

Gear:
Ropes: 2x 30m

Summary: (machine translated)
Rappel canyon that rarely has water. Slippery terrain.

Hydrology:

Access: (machine translated)
From Barbastro on the N-123, 17.5 km in the direction of Benabarre, Graus. In a parking bay on the left before a tunnel in the narrows (Congosto) of the Rio Èsera park car.

Approach: (machine translated)
From the car about 750 m back on the road (downstream) to a prominent road widening. Here we take the wide hiking trail (GR, red-white marking), which leads us in about 15 min. up to a striking rock formation (to the left - possibly occupied by vultures). Here we leave the GR that goes up to the right and continue straight ahead at about the same altitude (sometimes sloping a bit) for about 30 min. until we reach the clearly visible edge of "our" barranco. While the path now descends into it, we keep on indistinct climbing tracks on its origraf. left edge upwards and thus come to the clearly recognizable entry.

Tour: (machine translated)
12 rappel, emergency exit left on the run after the 5th rappel

Return: (machine translated)
The exit can be difficult. If the Rio Èsrera has low water (the rule below a barrage), you cross the road and water pipe in a tunnel and then the river to the other bank. Cross back over the Èsera below the narrow section, climb up to the road and follow it downstream to the car.

Since around 2018, you have been spared this detour because there is an exit directly to the road at the canyon exit on the right.

Coordinates:
Canyon Start 42.1014 0.2867
Canyon End 42.1049 0.2851

Automatisch importiert von Descente-Canyon.com für Canyon San Andres Equipement nickelPetit debit en 1ere partie et quasi inexistant en 2nd. Bel encaissement, marche de retour au bord de la route dangereuse surtout lors du passage dans les deux tunnels (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22624/observations.html)
