Canyon length: 350m	**Highest rapell:** 41m	**Amount rapells:** 3
Transport:	**Rock type:**	**Drainage area:** km²
Season: January - December	**Orientation:**	**Best Time:**
Rating: ☆ 0 ()	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
Short canyon that can be easily combined with Rio Palomarejas de Olba.

Hydrology:
– TODO –

Access: (machine translated)
By the A23 to Venta del Aire and detour to Olba by the TE-V-2001.
Two cars: At km 7 turn left (Casa Bolea) and follow the road for a kilometer and a half until the end where there is a small esplanade to park. Here the car back.
The access car back to the road and at kilometer point 8.5 turn right onto a track that goes down to the ravine.
We arrive at an esplanade where we leave the car and get ready.

Approach: (machine translated)
From the esplanade along the track we reach the ravine and enter from the left.

Tour: (machine translated)
Thanks to the channel, it almost always carries a trickle of water.

Return: (machine translated)
We follow the path to the right that passes next to the power plant. Soon you reach the track/road to the car.
If we go along the river Millares passing the power station, it is 30 minutes more. Be attentive to the overflows of the river.

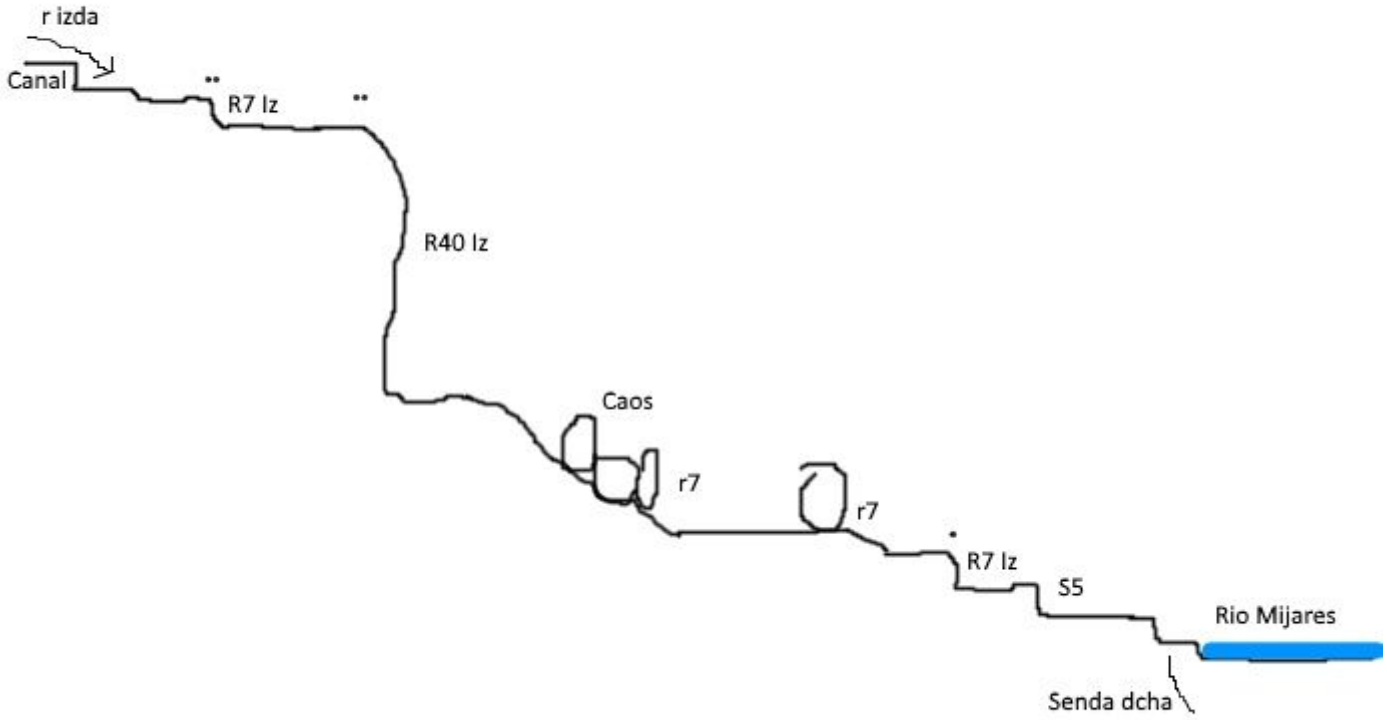

Coordinates:
Canyon Start 40.1213 -0.6725
