<b>Summary:</b> (machine translated) Beautiful ravine with two parts separated by the PR, located right at the bar of the 6000 steps trail. Caution with the waterfall and its hanging meetings. It can be combined with Infierno		
<b>Hydrology:</b> (machine translated) Except for the great vertical, the rest of the time we can go out on the trail.		
<b>Access:</b> (machine translated) From Orba take the CV721 and CV718 to Fleix. We will park in the village of Fleix		
<b>Approach:</b> (machine translated) We leave towards Benigembla and after 100m we have the detour to the right by the PR CV 147, we go down to the Font Grossa and the laundry, after passing them the path of the PR CV 147 (path of the steps). We will go down it almost to the cave of Fleix and shortly before we cross the riverbed, time to throw us to the right in search of the vertical.		
<b>Tour:</b> (machine translated) Two very distinct parts separated by the trail. The first part is vertical with the split R60 and after the junction with the trail, shorter rapells, some of which can be climbed.		
<b>Return:</b> (machine translated) After the last rapel the ravine meets L'Infern. Here we take the uphill path back to the village.
