Specialities:

Gear:

Summary: (machine translated)
Simple canyon to combine with any other in the area, comfortable and fast access and returns. The views of the Júcar are impressive from here, just for that alone is worth it.

Hydrology:
No

Access: (machine translated)
We are on the CV580 between Dos Aguas and Millares.
Just at pk53 there is a small road to Otonel, we take it and continue for 5 kms to reach the Castle of Cavas that is on our left at the top, we go around the road and the next stream, with a small bridge is ours.
We will follow the road and after crossing a tunnel we will see a place on the left where we can park.

Approach: (machine translated)
We will walk back to the bridge.

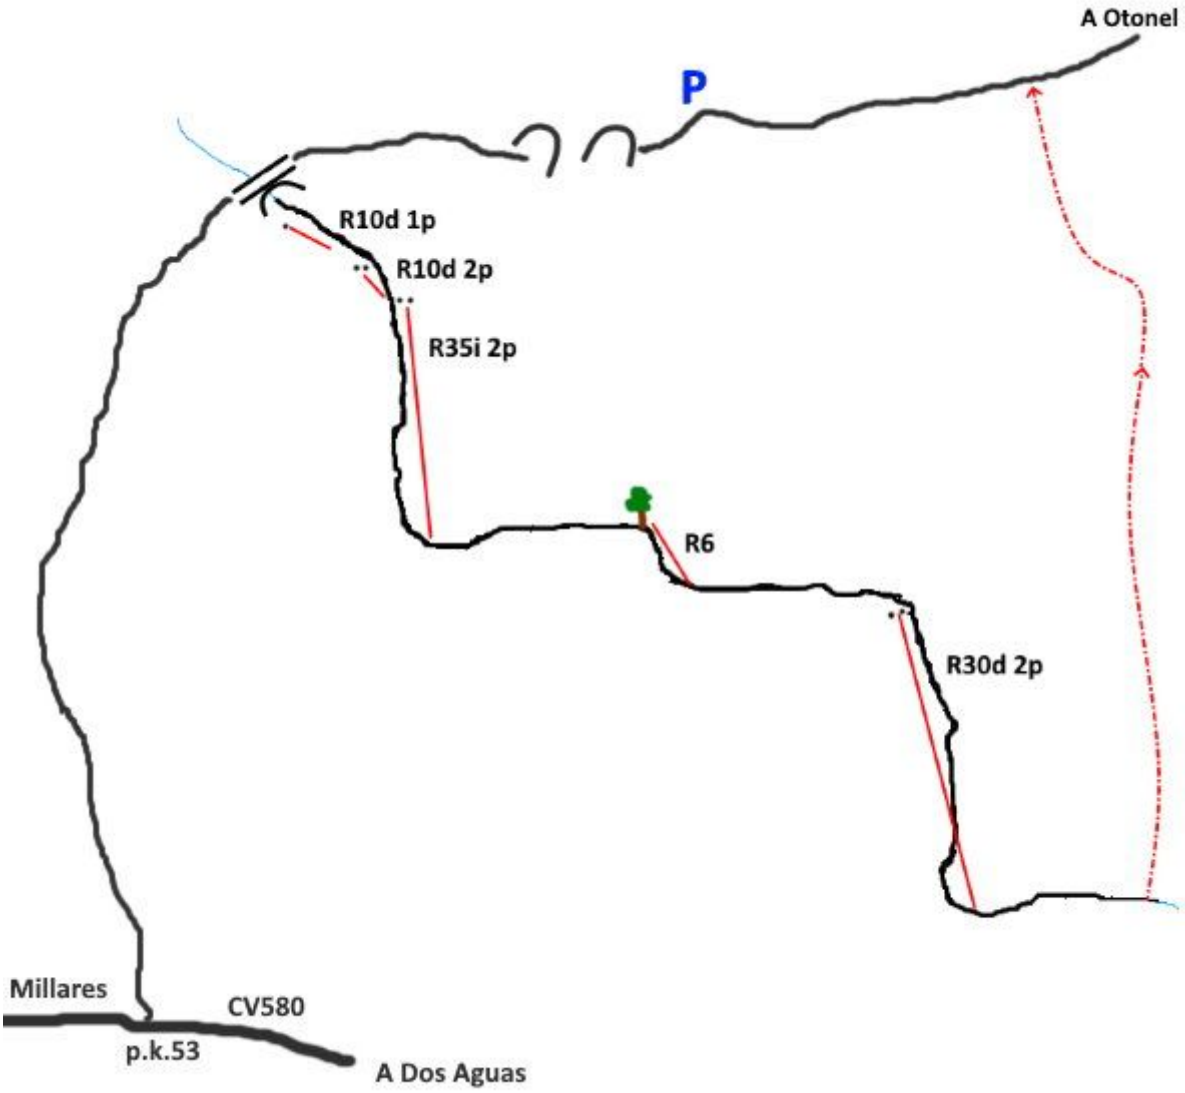

Tour: (machine translated)
Nice descent with two 30m verticals, the first one a little bit longer.

Return: (machine translated)
After the second R30 there are some boulders and the remains of a trail on the left that lead up to the road. When we reach the road we will go left to the place where we parked.
