Summary: (machine translated)
Easy river walk in a forest valley with small rappels

Hydrology:

Access: (machine translated)
We leave the A49 coming from Grenoble via exit 8 directly after the "Porte de la Drôme" and the "Royans-Vercors" service area. Then we drive to the parking lot for the exit at the Bouvante power plant. Then we take the second car to the parking lot for the entry, see Google aerial photos.\nIf we only have one car, we park it at the entry.

Approach: (machine translated)
Continue along the road to the bridge, where we get on.

Tour: (machine translated)
See topographic view, photos & videos.

Return: (machine translated)
If you do, turn right at the bridge over the Lyonne and walk down the stream to the car at the power station.
If there is no conversion, we exit to the left at the remains of a water drainage and take the path that leads us - keeping left at a fork - back to the car at "P1".

Automatisch importiert von Descente-Canyon.com für Canyon Léoncel Dans ces conditions, le canyon ne ressemble plus à grand chose: vasque ensablé (tob éjectable: 60 cm eau) et surtout beaucoup d'arbre tombés dans le canyon qui compliquent l'accès à la montée, ainsi que la descente. Automatisch importiert von Descente-Canyon.com für Canyon Léoncel Accès avec marche d'approche qui est très agréable. On a loupé le GR après avoir traversé la passerelle. Il ne faut pas aller au bout du champ mais bien le traverser en largeur. On a été surpris de constater un bon débit dans le canyon alors qu'il n' avait pas d'eau en bas.
