| Short canyon between Chamonix and Martigny. Do not go in there in summer, there is a huge water catchment that can open at any time (even in the fall, but once it gets cold the risks are no longer so high). (machine translated) |   |                                       |
| <b>Hydrology:</b> (machine translated)<br>Attention, very large water catchment above.  |   |                                       |

| <b>Tour:</b> (machine translated)<br>First a few "normal" rappels, and a few jumps. Then it gets very dark as you go under the big blocks, sometimes the jump goes into the dark. After that, not quite as continuous.              |   |                                       |
